

Tradition and innovation – 169 years of KERN

Independent and family-run, KERN is already in its 6th generation and is synonymous with quality and reliability in customer service.

fast

- 24 hours delivery service – order today, on its way tomorrow
- Sales & service hotline from 8:00 am to 6:00 pm

reliable

- 2+ years warranty
- Precision in weighing technology for the last 169 years

diverse

- One-stop shopping: from pocket balances through to floor scales – everything from one supplier
- Quick as a flash, find the product you want with the „Balance Quick-Finder“ at the internet

competent

- DKD accreditation (DIN EN ISO/IEC 17025)
- QM system (DIN EN ISO 9001:2000)
- Initial verification by the manufacturer (2009/23/ECC)
- Medical (DIN EN ISO 13485 & 93/42/EEC)

Printed in Germany

How do I find the product I am looking for?

The tried and tested quick search system – „Quick-Finder“ ahead of each product group means that you can search against a target group using the weighing data you need, such as readout, weighing range and main features for each model.

And it's this simple – find the product you want in 2 steps:

1. Go to the product group list on page 3
2. Go to the product group and find the product you want using the Quick-Finder.

... or use the model name and find the product quickly and efficiently using the A-Z model list:

KERN Pictograms

-  **Internal adjusting (CAL):** Quick setting of the balance's accuracy with internal adjusting weight (motordriven).
-  **Adjusting program (CAL):** For quick setting of the balance's accuracy. External adjusting weight required.
-  **Memory:** Balance contains memories, e.g. for item data, weighing data, tare weights etc. PLU
-  **Data interface RS-232:** To connect the balance to a printer, PC or network
-  **Control outputs (optocoupler, digital I/O)** to connect relays, signal lamps, valves, etc.
-  **Interface for second balance:** for direct connection of a second balance
-  **Network interface:** For connecting the scale to an Ethernet network. With KERN products you can also use a universal RS-232/LAN converter.
-  **GLP/ISO record keeping:** of weighing data with date, time and identification-no. Only with printers from KERN.
-  **Piece counting:** Reference quantities selectable. Display can be switched from piece to weight
-  **Net-total weighing:** weight of tare cup and weight of components memorized in two separate stores.
-  **Percentage determination:** Determining the deviation in % from the target value (100%).
-  **Weighing units:** Can be switched to e. g. nonmetric units at the touch of a key. See balance model. Please refer to KERN's website for more details.
-  **Weighing with tolerance range:** Upper and lower limiting can be programmed individually, e.g. dosing/sorting and portioning.
-  **Vibration-free weighing:** (Animal weighing program) Vibrations are filtered out so that a stable weight is obtained.
-  **Spray and dust protection IPxx:** The type of protection is shown by the pictogram. For details see the glossary.
-  **Stainless steel:** the balance is protected against corrosion.
-  **Suspended weighing:** load support with hook on the underside of the balance.
-  **Battery operation:** Ready for battery operation. The battery type is specified for each device.
-  **Rechargeable battery pack:** rechargeable set.
-  **Mains adapter:** 230V/50Hz in standard version for Germany. On request GB, AUS or USA version.
-  **Power supply:** integrated in balance. 230V/50Hz in Germany. More standards e. g. GB, AUS, USA on request.
-  **Strain gauges:** Electrical resistor on an elastic deforming body.
-  **Tuning fork principle:** A resonating body is electromagnetically excited, causing it to oscillate.
-  **Electromagnetic force compensation:** Coil in a permanent magnet. For the most accurate weighings.
-  **Single cell technology:** Advanced version of the force compensation principle with the highest level of precision.
-  **Verification possible:** The time required for verification is specified in the pictogram.
-  **DKD calibration possible:** The time required for DKD calibration is shown in days in the pictogram.
-  **Package shipment:** The time required to manufacture the product internally is shown in days in the pictogram.
-  **Pallet shipment:** The time required to manufacture the product internally is shown in days in the pictogram.
-  **Warranty:** The warranty period is shown in the pictogram.

KERN - measuring technology and testing services from a single source

Balances & Test service catalogue

Provides a complete overview of the KERN line of balances, test weights, and services.

Medical scales catalogue

Complete line of medical scales, from infant scales to professional patient scales, seated scales and adiposity scales, as well as innovative hand grip dynamometers, chemist's scales, and veterinary scales.

KERN DKD calibration service brochure

Detailed information on topics pertaining to the calibration of balances, test weights, and force measuring devices.

SAUTER measuring equipment catalogue

Test instruments for industry and commerce, such as force, coating thickness, material thickness, and hardness measuring systems.

KERN branch prospectuses

Compact overview of the bestsellers for many different lines of business – just the balances your customers need!

Tradition and innovation for more than 169 years

Independent and family-run, KERN is already in its 6th generation and is synonymous with quality and reliability in customer service.

- **1844** KERN is founded – precision balances are produced
- **1863** A proud Gottlieb Kern with his staff
- **1880** Pharmaceutical balance with Aesculap
- **1923** Inflation – KERN wages are paid with self printed currency
- **1980** The electronic balance ousts mechanical devices
- **1994** Accredited for weights DKD laboratory (ISO 17025)
- **2000** New premises in Balingen
- **2002** Existing QM system certification in accordance to DIN EN ISO 9001:2000 standards
- **2007** Approval for the Manufacture of Medical Products (DIN EN13485 and 93/42/EEC)
- **2008** Approval for manufacturer's initial calibration (2009/23/ECC)
- **2009** Approval for the manufacture and sale of height rods (DIN EN 13485 and 93/42/ECC)
- **2012** Verification point for non-automatic balances and test weights
- **2012** New customer portal KERN goes live

Your advantages

-  **Quick Delivery**
Items in stock are sent the same day if orders are placed before 1:00 pm (valid for parcel service delivery within the EC).
-  **Price performance ratio**
KERN scales are always an inexpensive alternative. They are durable, uncomplicated and easy to place into operation.
-  **2+ years warranty**
-  **Sale or return**
within 14 days of purchase

„Get in touch with the future“

Come and discover all the features of the innovative KERN touchscreen models

- The highest level of transparency

All the function keys on the touch-sensitive display are labelled with plain text and with the menu languages available, this helps to ensure the highest level of transparency and ease of operation.

- Simply start writing

Thanks to the large keypad you can easily enter recipe ingredients, batch or item descriptions, user ID, tare values, etc. in plain text – saving time and avoiding misunderstandings. At any time, all values can be printed out or transferred to a connected PC in accordance with GLP.

- Save costs

With the efficient touchscreen models, all common weighing applications are covered with one balance, such as, for example, counting, dispensing, mixing, percentage determination, totalising, animal weighing, etc. So you just need one balance, which can be used in more than several locations, thanks to its compact dimensions.

- Process reliability

A generous memory allows you to store recipes with a large number of ingredients, which can be easily recalled and processed, time and time again.

- Several models

Compact for high-tech laboratories, with extra large weighing plate for larger units or with removable display for use under hoods or in glove bags – at KERN you will always find just the right product.

KERN – Weighing can be this simple.

You will find a detailed description of our new touchscreen models on the following pages:

We also have lots of new models in our range for 2013.
Innovative products with the KERN quality you are used to – why not have a look for yourself ...

Precision balance EMB-V

Entry level laboratory balance with integrated density determination function

Further details → see page 15

Precision balance PCD

High resolution precision balance with removable display device for maximum flexibility

Further details → see page 20

Precision balance KBJ

Convenient laboratory model at a basic price and completely new: with internal automatic adjustment!

Coming soon...

Analytical balance ABS-N/ABJ-NM

Entry level analytical balance with high-quality single cell weighing system

Further details → see page 42

Moisture analyser DLT

High-end moisture analyser with touch-sensitive screen and innovative Windows CE touch® operating system

Further details → see page 52

IP protected bench scales WTB-N

Ideal in the food industry, protected by IP65, easy to clean

Further details → see page 68

Stainless steel bench scale FOB-S

Compact stainless steel scale – now particularly high resolution

Further details → see page 69

Stainless steel platform scale SFB

Stainless steel platform scale with IP67, XL platform and with EC-type approval

Further details → see page 73

Counting scale CFS

Professional, high resolution counting scale with 100 item memories and second balance interface, counting resolution up to 75,000 points

Further details → see page 83

Industrial counting scale IFS

Industrial counting scale with convenient keypad for easy data entry, now with counting resolution 60,000 points

Further details → see page 85

Platform scale ILS/ILJ

High-resolution industrial scale with robust weighing technology for the most precise results from 0,1 g up to 50 kg, also with EC type approval

Further details → see page 99

Stainless steel floor scale BFN

Stainless steel floor scale in XL size with IP68 platform

Further details → see page 106

1 Pocket balances

KERN Model		Page
TEE	Designer pocket balance at a bargain price	08
TCB	This is where the fun starts with pocket format weighing	08
CM TEB	Small, practical and protected in a hard case cover	08
TAB	High-precision pocket carat balance for jewellers and travelling salesmen	08
CM-C	Compact pocket balance with carat display - ideal for jewellers	08

Precision in pocket format:

Pocket balances are the ideal helper whenever mobility and high precision are required. Since they have fewer keys, operation is simple and fast. Different weight units stored in the pocket balance, such as g, oz, ct, gn, etc., make them universally usable. An integrated calculator lets you use the weight measured immediately in calculations, e.g. a price, unit count, average values and many more. Compact in size and well protected with a flap or protective cover, which can be used as a convenient taring container, the pocket balance is always a useful tool for mobile weighing.

- In production, for inspection of production weights; during picking of small parts
- In quality control for quick testing of small parts like plastic parts from injection moulding machines, milled parts, screws, etc.
- In quality control for quick testing of small parts like plastic parts from injection moulding machines, milled parts, screws, etc.
- For mobile weighing, in on-site sampling, for fast analysis anywhere there's no power outlet.
- For hobbies and sports, for example for the loading of black powder, to weigh parts from construction sets, etc.

- In commerce, for the fast determination of the weights of coins, jewellery, precious stones, etc.
- In veterinary medicine for the weighing of small animals, the mixing of feed, etc.
- In the food area for the preparation of spice or tea mixes, for the weighing of food for dieting.

Of course, all KERN pocket balances can also be calibrated and delivered with a DKD calibration certificate (optional). This ensures the high level of accuracy of your balance.

Designer pocket balance at a bargain price

- **Simple and convenient 2-key operation**
- **Cover made of shock proof plastic** as protection against pressure and dust. Can also be used as a tare cup
- **Note: Can be printed with your logo**, from 100 pcs. Please ask for details

This is where the fun starts with pocket format weighing

- **Simple and convenient 2-key operation**
- **Small and handy**
- **Transport box and weighing pan included**
- **Revolving weighing plate** (as overload protection)
- **Note: Individual logo printing on request**

Small, practical and protected in a hard case cover

- TEB:**
- **Hard case cover as protection against pressure and dust**
- 1 CM:**
Functions as with TEB, in addition however with:
- **Integrated calculator**
- 2 CM-C:**
Functions as with TEB, in addition however with:
- **Adjusting weight standard**
 - **Draft shield** against air movements standard
 - **weighing pan standard**

High-precision pocket carat balance for jewellers and travelling salesmen

- **Simple and convenient 4-key operation**
- **Can be switched over from g to ct, gn at the touch of a key**
- **Hard case cover as protection against pressure and dust**
- **Adjusting weight and weighing pan standard**

PLS PLJ	Excellent performance, excellent price - also with internal adjustment	32/33
EW-N EG-N	Top of the range cost-effectiveness, with EC type approval [M]	34/35
PES PEJ	Robust laboratory and industrial precision balance, with EC type approval [M]	36
PLT	High-quality precision balance with convenient graphics display	37
PBS PBJ	Multifunctional laboratory balance with single-cell weighing system and EC type approval [M]	38/39
	High resolution model with large weighing range and large weighing plate for special laboratory applications	40

KERN Analytical balances with Single-cell cutting edge technology

To satisfy stricter requirements for precision, speed, and → **reproducibility** of weight values, monolithic balance cells are increasingly the standard. These are measurement sensors for determination of weight that are fabricated from an aluminium. These systems distinguish themselves from conventional balance cells in terms of both quality and performance:

- Higher measurement speed
- Better measurement precision
- Stable temperature behaviour
- Improved mechanical sturdiness
- Higher corner load reliability

KERN analytical balances on this measurement principle are designated as using „Single Cell Technology“ (→ **SC TECH**).

→ See the glossary on page 158/159

Interesting facts about the determination of density

One of the main areas of application for laboratory balances is determining densities, i.e. determining the specific weight of liquids and solids. To do this you will need a highly accurate precision balance and a density set. It is particularly convenient if the balance can calculate and display the density immediately. It has become apparent that using weighing when determining the density of liquids and solids in accordance with the buoyancy method gives particularly accurate results (Archimedes' principle).

Density determination of liquids:

By means of measuring the buoyancy with a glass plummet

Density determination of solid matter:

The density is the ratio of weight [g]: Volume [cm³]. The weight is derived by weighing the sample in air.

The volume is determined from the buoyancy [g] of a sample, which is submerged in a liquid. The density [g/cm³] of this liquid is known.

Applications:

- Materials analysis
- Density of porous materials
- Pre-packaged goods check, whenever the merchandise is sold according to volume [cm³]. This volume is calculated from the weight [g] : density [g/cm³].

Plummet

for density determination of liquids. Made of glass, hanging on a platinum wire.

Volume 10 cm³, weight 30 g, length 169 mm, verifiable, KERN 152-532

Verification, KERN 950-272

You can find examples of balances for density determination on pages 15, 22, 29-33, 37-39, 42-44, 46, 100/101.

02

Precision balance KERN EMB

02

Entry level laboratory balance with tremendous weighing performance

Features

- **Simple and convenient 2-key operation**, making them ideal for use in schools and universities
- **Tare function** facilitates formulation work
- **Particularly flat design**
- **Secure and non-slip positioning** with rubber feet
- **Ready for use:** Batteries included. AUTO-OFF function to preserve the batteries, can be switched off

Technical data

- Large LCD display, digit height 15 mm
- Dimensions of weighing plate (plastic)
 - ▲ 82 mm
 - B 105 mm
 - C 150 mm, see larger picture
- Dimensions housing WxDxH 170x240x39 mm
- Net weight approx. 0,5 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **1 Ring-shaped draft shield**, plastic, only for models with weighing plate sizes ▲, KERN EMB-A01
- **2 Stainless steel-weighing plate**, only for models with weighing plate sizes ■ B, KERN EMB-A02
- **Mains adapter external** not included, can be reordered, KERN 440-902

Precision balance KERN EMB-V

02

Entry level laboratory balance with integrated density determination function and simple operation

Features

- **Density determination made easy!** Thanks to the self-explanatory, graphic-assisted control panel, the density of solids and liquids can be determined in seconds, making them ideal for use in schools and universities. Interesting facts about density determination see page 10
- Visualised process means that operating errors are avoided
 - No learning time = reduces costs
 - Ideal for untrained users
- The 4 steps are carried out from left to right:
 - 1 Tare the balance by pressing the [TARE] key
 - 2 Select density determination mode (solids/liquids)
 - 3 Weighing samples/plummetts in air
 - 4 Weighing samples/plummetts in liquid. The density will be shown on the display immediately

- **Hook for underfloor weighing** standard
- **Particularly flat design**
- **Ready for use:** battery (9 V Block) standard. AUTO-OFF function to preserve the batteries, can be switched off
- **Tare function** facilitates formulation work

Technical data

- Large LCD display, digit height 15 mm
- Dimensions of weighing plate, plastic
 - A 82 mm, see larger picture. The illustration shows the EMB 200-3V model with optional density set YDB-01
 - B 150 mm
- Dimensions housing WxDxH 170x240x39 mm
- Net weight approx. 0,5 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- for KERN EMB 200-3V:
- **5 Set for density determination** of liquids and solids with density $\leq 1 \geq$. Scope of supply: Weighing plate, beaker, sample holder, plummet. KERN YDB-01
 - **Calibration certificate for the volume plummet** (20 g), KERN 962-335V
- for KERN EMB 2000-2V:
- **6 Set for density determination** of liquids and solids with density $\leq 1 \geq$. Scope of supply: Weighing plate, beaker, sample holder, plummet. KERN YDB-02
 - **Calibration certificate for the volume plummet** (200 g), KERN 962-338V

Precision balance KERN EMS

02

Entry level model in the low-cost range with large weighing plate

Features

- Especially suitable for use in schools and universities, for example for biology, chemistry, physics
- **Large, shock proof plastic weighing plate**
- **Particularly flat design**
- **Ergonomically optimised key pad** with large keys and a high-contrast LCD display
- **Secure and non-slip positioning** with rubber feet
- **Adjusting program CAL**, external test weights at an additional price, see page 133 ff.
- **Draft shield** standard, only for models with weighing plate sizes **A**. Removable metal cover with pipette opening. Weighing space WxDxH 145x145x65 mm

Technical data

- LCD display, digit height 15 mm
- Dimensions of weighing plate (plastic)
 - A** Ø 105 mm
 - B** WxD 160x160 mm, see larger picture
- Dimensions housing WxDxH 200x280x63 mm
- Optional battery operation, battery (9 V Block) not standard, operating time approx. 40 h, AUTO-OFF function to preserve the battery
- Mains adapter external standard
- Net weight approx. 1,4 kg
- Permissible ambient temperature 5 °C / 35 °C

New model

Precision balance KERN PFB

02

Low-cost model based on a concept of easy use

Features

- **Concept of easy use:** All primary functions have their own key on the keypad
- **Compact size,** practical for small spaces
- **Capacity display:** A bar lights up to show how much of the weighing range is still available
- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results

- **Draft shield** standard for models with weighing plate sizes **A** and **B**. Removable metal cover with pipette opening. weighing space WxDxH 158x143x64 mm
- **Separate second display** standard for models PFB 600-1M and PFB 6000-0M. Suitable for direct sales to the public. The verification value is the same as the readout. Large backlit LCDdisplay, Digit height 16 mm. Interface cable to the balance, Cable length approx. 1 m, and Mains adapter external standard. Dimensions WxDxH 250x180x105 mm

Technical data

- Backlit LCDdisplay, digit height 15 mm
- Dimensions of weighing plate (stainless steel)
 - A** Ø 80 mm, **B** Ø 120 mm
 - C** WxD 155x145 mm, see larger picture
- Overall dimensions (without draft shield) WxDxH 200x260x87 mm
- Net weight approx. 2 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Separate second display**, ideal for training and demonstration purposes in laboratories or in industry, not permitted for direct sales to the public, KERN PFB-A08
- **Suitable printers** see page 130

■ New model

Precision balance KERN PCB

02

The economical solution for the bargain hunter

GLP/ISO record keeping of weighing data, balance adjustment, etc. with date, time and identification no... Ideal for monitoring and documenting your processes in accordance with your quality management system

Piece counting
Thanks to its high level of accuracy, it is ideal for counting the smallest parts

With the **recipe function** you can weigh the different ingredients of a mixture. As a check, you can also recall the total weight of all the ingredients

Precision balance KERN PCB

Features

- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Freely programmable weighing unit**, e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar
- **Percentage determination**: makes it possible to store a given weight value (100%) and to determine deviations from this target value
- **Ring-shaped draft shield** standard, only for models with weighing plate sizes **A**, weighing space ØxH 90x40 mm

Technical data

- Backlit LCDdisplay, digit height 15 mm
- Dimensions of weighing plate (stainless steel*)
 - A** Ø 81 mm
 - B** Ø 105 mm*
 - C** WxD 130x130 mm*
 - D** WxD 150x170 mm*, see larger picture
- Optional battery operation, battery (9 V Block) not standard. AUTO-OFF function to preserve the battery, can be switched off
- Overall dimensions (without draft shield) WxDxH 163x245x79 mm
- Net weight approx. 1,1 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be reordered, for models with weighing plate sizes
 - A** KERN PCB-A02
 - B** KERN PCB-A03
 - C** KERN PCB-A04
 - D** KERN PCB-A05
- **Hook for underfloor weighing** to weigh hanging loads, standard, can be reordered, KERN 440-A01
- **Rechargeable battery pack internal**, can be reordered, operating time up to 48 h without backlight, charging time approx. 8 h. AUTO-OFF function to preserve the battery, can be switched off, KERN PCB-A01
- **Software Balance Connection**, details see page 131, KERN SCD-4.0
- **Individual header data**: the free software KERN SHM-01 can be used to print 4 header lines on the printout for printers 911-013 and YKB-01N
- **Suitable printers** see page 130

Precision balance KERN PCD

02

High resolution precision balance with removable display device for maximum flexibility

Features

- **Laboratory balance with separate platform:** Ideal when working in the glove bag or fume cupboard. Particularly practical for weighing toxic, volatile or contaminated substances
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Freely programmable weighing unit,** e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar
- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results

- **Draft shield** standard for models with weighing plate sizes **A**, weighing space WxDxH 146x146x70 mm

Technical data

- Backlit LCDdisplay, digit height 21 mm
- Dimensions of weighing plate
A Ø 105 mm
B WxD 160x160 mm, see larger picture
- Optional battery operation, 9 V Block, not included, operating time approx. 12 h. AUTO-OFF function to preserve the battery
- Overall dimensions WxDxH 165x280x73 mm
- Cable length of display device approx. 1,5 m
- Net weight approx. 1,1 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **1 Stand** to elevate display device, height of stand approx. 250 mm, KERN PCD-A03
- **2 Foot switch,** ideal, when the application requires two free hands. TARE or PRINT function can be selected. Scope of supply: junction box, Connection cable. For the PRINT function you will need the RS-232 interface cable, see page 131, KERN YKF-01
- **Rechargeable battery pack internal,** operating time up to 48 h without backlight, charging time approx. 8 h. AUTO-OFF function to preserve the battery, can be switched off, KERN PCD-A04
- **Suitable printers** see page 130

Precision balance KERN 440

02

The classic balance in the laboratory

Features

- **Compact size**, practical for small spaces
- **Percentage determination**: makes it possible to store a given weight value (100%) and to determine deviations from this target value
- **Ring-shaped draft shield** standard, only for models with weighing plate sizes **A**, weighing space ØxH 90x40 mm

Technical data

Precision balance KERN PLE-N

02

Low-cost precision balance with wide range of functions

Features

- **Compact size**, practical for small spaces
- **Piece counting**: Reference quantities selectable. Display can be switched from piece to weight.
- **Weighing sum memory** adds individual weighing results
- **Glass draught guard**, standard for models with weighing plate sizes **A**. Removable metal cover with pipette opening. weighing space ØxH 125x70 mm
- **Suspended weighing**: load support with hook on the underside of the balance (only KERN PLE 4200-2N)

Technical data

- Backlit LCD display, digit height 15 mm
- Dimensions of weighing plate (stainless steel)
 - A** Ø 80 mm
 - B** Ø 135 mm, see larger picture
- Dimensions housing WxDxH 185x250x80 mm
- Net weight approx. 2,5 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Rechargeable battery pack internal**, operating time approx. 30 h without backlight, charging time approx. 10 h. Charge condition indicator on display, KERN PLE-A06
- **Set for density determination** of liquids and solids with density $\leq 1 \geq$, similar to illustration. on all models with readout $d = 0,001 \text{ g}$, KERN ALT-A02
- **Suitable printers** see page 130

Precision balance KERN KB

02

Convenient model at a basic price,
also with EC type approval [M]

Features

- **User guidance step by step** through Yes/No dialogue on the display
- **Percentage determination:** parts taken out of a container which is on the weighplate can be displayed as a percentage. Convenient when carrying out drying processes, during which the evaporated moisture or the remaining weight can be displayed as a percentage
- **Freely programmable weighing unit,** e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar
- **Ring-shaped draft shield** standard, only for models with weighing plate sizes **A**, weighing space ØxH 90x40 mm

Technical data

- Backlit LCD display, digit height 9 mm
- Dimensions of weighing plate (stainless steel*)
 - A** Ø 81 mm
 - B** Ø 130x130 mm*
 - C** WxD 150x170 mm*, see larger picture

Precision balances KERN PKS · PKP

02

KERN PKS

KERN PKP

Two laboratory specialists with clear graphics display for the most simple user guidance

Large backlit graphic display

All relevant information for the mode you are using is displayed clearly, at a glance and assigned to the keys are assigned on the keyboard overlay

Clear menu structure with plain text labels on the display

The menu and processes are self-explanatory. This reduces the training times, avoids operating errors and in this way, ensures more efficient, rapid operation

Functions:

- Capacity display
- Dispensing assistance (subtractive, additive)
- Piece counting with reference
- Automatic reference optimisation
- Tare deduction from the memory unit
- Input of item or batch description, operator etc. from the memory unit
- Freely programmable weighing unit, e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar
- Date/time in the display
- Individual printout configuration

Weighing with tolerance range

(checkweighing): Input of an upper/lower limit value. A visual signal assists with portion division, dispensing or grading

Convenient recipe weighing

you can save up to 5 complete recipes in the memory with up to 7 components of a mixture. The individual components of a mixture can be printed out clearly with the name, weight and grand total

GLP/ISO record keeping of weighing data, balance adjustment, etc. with date, time and identification no... Ideal for monitoring and documenting your processes in accordance with your quality management system

Precision balances KERN PKS · PKP

02

General features

- On the basis of the KERN KB and KERN 572 bestsellers, many of your typical laboratory functions have been expanded to include a clear graphics screen, which processes the relevant information visually and makes it significantly easier to operate and read the weights off the display
- **1 Navigation pad** for super quick navigation through the menus
- **40 memories for each mode**

Features PKS

- **High mobility:** (laboratory, production, quality testing, commissioning,...)
- **Ring-shaped draft shield** standard for models with weighing plate sizes **A**, weighing space ØxH 90x53 mm

Technical data PKS

- Back-lit LCD graphic display, screen diagonal 3,2" (approx. 81 mm)
- Dimensions of weighing plate:
 - A** Ø 81 mm
 - B** WxD 130x130 mm

- **C** WxD 150x170 mm, see larger picture
- Dimensions housing WxDxH 167x250x85 mm
- Permissible ambient temperature 10 °C / 40 °C

Features PKP

- **Robust metal housing**, ensures stability, protects the weighing technology elements and is robust enough to cope with everyday use
- **Ring-shaped draft shield** standard for models with weighing plate sizes **D**, weighing space ØxH 157x57 mm

Technical data PKP

- Back-lit LCD graphic display, screen diagonal 3,2" (approx. 81 mm)
- Dimensions of weighing plate:
 - D** Ø 106 mm
 - E** Ø 150 mm
 - F** WxD 160x200 mm, see larger picture
- Dimensions housing WxDxH 180x310x85 mm
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be reordered, for KERN PKS with weighing plate sizes **A** KERN PCB-A02 **B** KERN PCB-A04 **C** KERN PCB-A05 for KERN PKP: **D** - **F** KERN 572-A02
- **2 Rechargeable battery pack internal**, only for KERN PKS, operating time up to 10 h, charging time approx. 10 h, KERN KB-A01N
- **Rechargeable battery pack external** operating time up to 40 h, charging time approx. 10 h, KERN KS-A01
- **3 Large glass draught shield** with 3 sliding doors for easy access to the items being weighed, only for KERN PKP with weighing plate sizes **D**. Weighing space WxDxH 150x140x130 mm, KERN 572-A05
- **Suitable printers** see page 130

Precision balances KERN 572 · 573

02

All-rounder e.g. as laboratory, counting or checking balance, also with EC type approval [M]

Features

- Thanks to the many typical laboratory functions, such as, for example, recipe function, percentage determination, GLP record keeping, combined with the high level of precision, the KERN 572 is a reliable partner for day-to-day work in the laboratory. The robust version with an aluminium diecast housing, typical industrial functions, such as piece-counting, vibration-free weighing and the large weighing ranges also make these balances ideal for all industrial applications, where a high level of precision is required

- The robust metal housing maintains the stability, protects the weighing technology elements and is robust enough to cope with everyday use
- Only 572: **Ring-shaped draft shield** standard (Weighing plate **A**), weighing space ØxH 157x43 mm
- **1 UNITS:** Further weighing units see the internet (only 572)

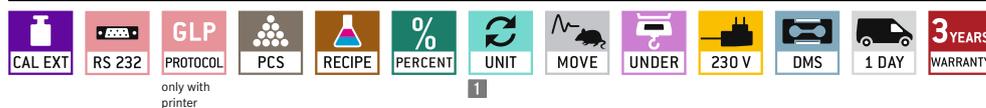

Technical data

- Large backlit LCDdisplay, digit height 18 mm
- Dimensions of weighing plate (stainless steel)
 - A** Ø 106 mm
 - B** Ø 150 mm
 - C** WxD 160x200 mm, see larger picture
- Overall dimensions WxDxH 180x310x130 mm
- Permissible ambient temperature
 - KERN 572: 10 °C / 40 °C
 - KERN 573: 10 °C / 30 °C

Accessories

- **Protective working cover** standard, can be reordered, KERN 572-A02
- **2 Only 572: Rechargeable battery pack external**, operating time up to 25 h, charging time approx. 10 h, KERN KS-A01
- **3 Large glass draught shield** with 3 sliding doors for easy access to the items being weighed. Weighing space WxDxH 150x140x130 mm (only for models with weighing plate sizes **A**), KERN 572-A05
- **Suitable printers** see page 130

Precision balance KERN EWB

02

Verifiable entry level model in the upper laboratory class with EC type approval [M]

Features

- **Very fast display:** steady weight values within 2 sec
- **Capacity display:** A bar lights up to show how much of the weighing range is still available
- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight, counting resolution up to 62.000 points
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual signal assists with portion division, dispensing or grading

Technical data

- Large LCD display, digit height 17 mm
- Dimensions of weighing plate (stainless steel)
 - A Ø 140 mm, see larger picture
 - B WxD 180x160 mm
- Dimensions housing WxDxH 182x235x75 mm
- Net weight approx. 1,1 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be reordered, KERN EG-A05
- **Rechargeable battery pack internal,** operating time up to 32 h, charging time approx. 10 h, can be reordered, KERN EWB-A01
- **Loop for underfloor weighing,** KERN EG-A07

Precision balance KERN EW

02

Verifiable gold and laboratory balance with EC type approval [M]

Features

- **Short stabilisation time:** Steady weight values within approx. 2 sec
- **Capacity display:** A bar lights up to show how much of the weighing range is still available
- **Ring-shaped draft shield** standard, only for models with weighing plate sizes **A**, weighing space ØxH 155x57 mm

Technical data

- Large LCD display, digit height 17 mm
- Dimensions of weighing plate (stainless steel)
 - A** Ø 110 mm
 - B** Ø 140 mm
 - C** WxD 172x142 mm, see larger picture
- Overall dimensions (without draft shield) WxDxH 177x230x88 mm
- Net weight approx. 1,7 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Protective working cover** over keyboard and housing EG-A02, can be reordered, KERN EG-A02
- **1 Large glass draught shield** with 3 sliding doors for easy access to the items being weighed. Weighing space WxDxH 150x140x130 mm (only KERN EW 150-3M), KERN EG-A01
- **2 Rechargeable battery pack internal**, operating time up to 32 h, charging time approx. 12 h, AUTO-OFF function to preserve the battery, KERN EW-A02
- **3 Data interface**, KERN EW-A01
- **2 3** only one option possible
- **Suitable printers** see page 130

Precision balance KERN PLJ-N

Excellent performance at a very reasonable price, with EC type approval [M]

Features

- **Automatic internal adjustment** in the case of a change in temperature ≥ 3 °C or time-controlled every 3 hours
- **Draft shield** standard (on all models with readout $d = 0,001$ g). weighing space $W \times D \times H$ 140x140x65 mm

- **Rechargeable battery pack internal**, standard, operating time approx. 35 h, charging time approx. 12 h
- **Weighing with tolerance range (checkweighing)**: Input of an upper/lower limit value. A visual signal assists with portion division, dispensing or grading

- Overall dimensions $W \times D \times H$ without draft shield 206x335x85 mm incl. draft shield 206x335x157 mm
- Net weight approx. 3,6 kg (incl. draft shield approx. 4 kg)
- Permissible ambient temperature 15 °C / 30 °C

Characteristics KERN PLJ-NM:

- Weighing principle: Force compensation

Characteristics KERN PLJ-GM:

- Weighing principle: Strain gauge
- **Ergonomically optimised keypad** for left and righthanded users

Technical data

- Backlit LCDdisplay
PLJ-N, -NM: digit height 17 mm
PLJ-GM: digit height 19 mm
- Dimensions of weighing plate (stainless steel) $W \times D$
A 128x128 mm
B 195x195 mm, see larger picture

Accessories

- **Protective working cover** standard, can be reordered, KERN ALS-A02
- **Set for density determination** of liquids and solids with density ≤ 1 , only suitable for models with readout $d = 0,001$ g (PLJ-N). The density is indicated directly on the display, sim. to illustration, KERN PLS-A01
- **Suitable printers** see page 130

Precision balance KERN PKT

02

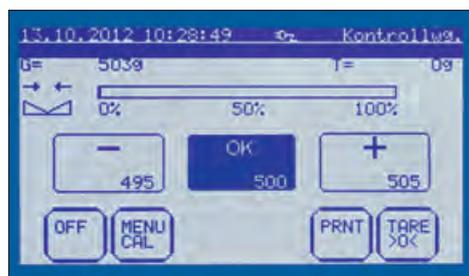

Touchscreen laboratory balance with extensive range of functions

Display at full size, operating mode weighing

Clear menu structure with the keys labelled with plain text and touch-sensitive display
The menu and processes are self-explanatory. This reduces the training times, avoids operating errors and in this way, ensures more efficient functionality

Weighing with tolerance range

(checkweighing), ideal for portion division, dispensing, grading

Convenient recipe weighing

you can save up to 5 complete recipes in the memory with up to 7 components of a mixture. The individual components of a mixture can be printed out clearly with the name, weight and grand total

Easy input of text and values

e.g. item descriptions, user name, weights for tare containers, etc. using large keypad

Precision balance KERN PKT

02

Features

- **Innovative touchscreen:** Large touch-sensitive, backlit screen with very good contrast for easy operation and convenient reading
- **Maximum transparency:** All function keys are labelled with plain text which ensures that they are easily understood. The menu tree overlay in the info bar allows you to see at a glance which function is currently in use
- **Advantages:**
 - No more errors or lost time through keys which have several functions or unclear markings
 - Large keys, which can also be operated while wearing gloves
 - Clearly structured menu - to guide you intuitively through the large number of operating modes and functions
- **Robust metal housing,** ensures stability, protects the weighing technology elements and is robust enough to cope with everyday use
- **Ring-shaped draft shield** standard for models with weighing plate sizes **A**, weighing space ØxH 157x57 mm

Technical data

- Large backlit LCD touch display, digit height 15 mm, screen diagonal 4,3" (approx. 109 mm), WxH 91x54 mm

- Dimensions of weighing plate (stainless steel)
 - A** Ø 106 mm
 - B** Ø 150 mm
 - C** WxD 160x200 mm, see larger picture
- Overall dimensions WxDxH 180x310x90 mm
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** standard, can be reordered, KERN 572-A02
- **Rechargeable battery pack external,** operating time approx. 15 h, charging time approx. 10 h, KERN KS-A01
- **Large glass draught shield** with 3 sliding doors for easy access to the items being weighed. Weighing space WxDxH 150x140x130 mm (only for models with weighing plate sizes **A**), KERN 572-A05
- **Set for density determination** of liquids and solids with density $\leq 1 \geq$,
 - 2** for models with weighing plate sizes **A**, KERN YDK-01
 - 3** for models with weighing plate sizes **B**, KERN YDK-02
- **RS-232/Ethernet adapter,** to connect balances with an RS 232 interface to a network, using Ethernet, details see page 131, KERN YKI-01
- **Suitable printers** see page 130

Modes

- ① Weighing
- ② Counting
- ③ Dispensing
- ④ Recipe weighing
- ⑤ Checkweighing
- ⑥ Totalizing with daily total
- ⑦ Percentage determination
- ⑧ Animal weighing
- ⑨ Surface weight
- ⑩ Density determination, only with **A**, **B**
- ⑪ Rapid mode

Functions

- Capacity display, with ① - ②, ⑦, ⑨ - ⑪
- Dispensing assistance (subtractive, additive), with ①, ④
- Net/Gross display, permanently on, with ① - ⑩
- Variable reference quantity, with ②
- Automatic reference optimisation, with ②
- Tare deduction numerical or from the memory unit, with ① - ⑩
- Input of item or batch description, operator etc., with ① - ⑩
- Freely programmable weighing unit, e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar, with ①, ⑨
- Date/time, with ① - ⑩
- Statistical function, with ①, ③, ⑤
- GLP printout, with ① - ⑩
- Individual printout configuration, with ① - ⑩

PKT 24K0.1	24000	0,1	0,1	± 0,3	0,1	2,7	C	963-128	

Excellent performance, excellent price - also with internal adjustment

GLP/ISO record keeping of weighing data, balance adjustment, etc. with date, time and identification no... Ideal for monitoring and documenting your processes in accordance with your quality management system

Piece counting
Thanks to its high level of accuracy, it is ideal for counting the smallest parts

Percentage determination: parts taken out of a container which is on the weighplate can be displayed as a percentage. Convenient when carrying out drying processes, during which the evaporated moisture or the remaining weight can be displayed as a percentage

Precision balance KERN PES · PEJ

02

Robust laboratory and industrial precision balance, with EC type approval [M]

Features

- **2** only PEJ: **Automatic internal adjustment**
- **3** only PES: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price, see page 133 ff.
- **Metal housing:** robust and sturdy
- **Weighing with tolerance range (checkweighing):** Input of 2 upper and 2 lower limit values through 4 arrow keys. An audible signal assists with the portion division, dispensing or grading
- **1 Draft shield** standard on all models with readout d = 0,001 g. weighing space WxDxH 170x150x100 mm. Removable metal cover with pipette opening

Technical data

- Fluorescent display bright with high contrast, digit height 13 mm
- Dimensions of weighing plate (stainless steel) WxD
 - A** 140x120 mm
 - B** 200x200 mm, see larger picture
 - C** 250x220 mm
- Overall dimensions (without draft shield) WxDxH for models with weighing plate sizes
 - A** 220x333x93 mm
 - B** 220x333x93 mm
 - C** 260x333x110 mm
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Protective working cover** standard, can be reordered (not for KERN PES 31000-1M), KERN PES-A04
- **4** Only PES: **Rechargeable battery pack internal**, operating time up to 6 h, charging time approx. 15 h (internal charging with mains adapter), must be ordered at purchase, KERN PES-A01
- **Relay output** with 5 outputs for weighing result in 3 tolerance ranges, must be ordered at purchase, KERN PES-A02
- **Suitable printers** see page 130

Precision balance KERN PLT

High-quality precision balance with convenient graphics display, now also with EC type approval [M]

Features

- **Convenient recipe-weighing:** with the recipe database, in which up to 99 recipes can be stored, each with up to 20 recipe ingredients with name and target value
- **Rapid and efficient operation** thanks to the graphics display
- **Simple plain text user guidance in the display** in the following languages: D, GB, F, I, E, PT
- **Automatic internal adjustment** in the case of a change in temperature > 1,5 °C or time-controlled every 20 minutes
- **Percentage determination:** makes it possible to store a given weight value (100%) and to determine deviations from this target value

- **Weighing with tolerance range,** ideal for portion division, dispensing, grading
- **GLP/ISO record keeping** of weight values with date, time and serial number
- **Glass draught guard,** standard for models with weighing plate sizes **A**. Removable metal cover with pipette opening. weighing space ØxH 150x60 mm

Technical data

- Large backlit LCDdisplay, digit height 15 mm
- Dimensions of weighing plate
A Ø 110 mm
B Ø 160 mm
- Overall dimensions (incl. draft shield)
WxDxH 210x340x160 mm
- Net weight approx. 4 kg

- Permissible ambient temperature
5 °C / 35 °C

Accessories

- **Protective working cover,** KERN PLJ-A01
- **Set for density determination** of liquids and solids with density ≤ 1 ≥
On all models with readout d = 0,001 g, KERN ALT-A02
On all models with readout d = 0,01 g, KERN PLT-A01
- **Suitable printers** see page 130

Precision balance KERN PBS · PBJ

02

Multifunctional laboratory balance with single-cell weighing system and EC type approval [M]

2 only PBS: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price

Simple recipeweighting and documenting with a combined tare/print function. In addition, the mixing ingredients for the recipe are numbered automatically and printed out with their corresponding number and weight value

Percentage determination: makes it possible to store a given weight value (100%) and to determine deviations from this target value

Precision balance KERN PBS · PBJ

02

Features

Technical data

- **1** only PBJ: **Automatic internal adjustment** in the case of a change in temperature or time-controlled at defined intervals
- **Metal housing:** robust and sturdy
- **Dosage aid:** High-stability mode and other filter settings can be selected
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual signal assists with portion division, dispensing or grading
- **Totalizing** of individual weighing results
- **Identification number:** 4 numeric positions, printed on calibration protocol
- **Automatic data output to the PC/printer** every time the balance is steady
- **3 Draft shield** standard, on all models with readout d = 0,001 g, weighing space WxDxH 180x193x87 mm

- Large backlit LCDdisplay, digit height 14 mm
- Dimensions of weighing plate (stainless steel)
 - A** 108x105 mm
 - B** 170x180 mm, see larger picture
- Overall dimensions (without draft shield) WxDxH 209x322x78 mm
- Net weight approx. 3 kg
- Permissible ambient temperature 10 °C / 30 °C

- **5** Single-cell advanced technology:
 - **Fully automatic manufactured weighing cell from one piece of material**
 - **Stable temperature behaviour**
 - **Short stabilisation time: 3 sec**
 - **Shock proof construction**
 - **High corner load performance**

Accessories

- **Protective working cover** over keyboard and housing, standard, can be reordered, for models with weighing plate sizes
 - A** KERN PBS-A01

High-precision balances for heavy loads

High-capacity precision balances can be used when the weighing ranges of classic laboratory balances are not sufficient or the items to be weighed are relatively bulky.

KERN DS 5K0.05S Affordable platform balance with laboratory accuracy

Best for bulky or heavy samples, thanks to the robust platform with stainless steel weighing plate and display device which can be positioned to suit you. Of course it has all the features related to laboratory work, which will make your processes more efficient and reliable.

Weighing range: 5 kg
Read-out: 0,05 g
Weighing plate: 228x228 mm

For additional information
see page 98

KERN ILS 50K-4 High-resolution laboratory platform scale for the most precise results up to 50 kg

The high-quality finish, exceptional weighing data and extensive configuration package all go to make this range particularly suitable for demanding requirements.

Weighing range: 50 kg
Read-out: 0,1 g
Weighing plate: 365x258 mm

For additional information
see page 99

KERN IKT 3K0.01S High-resolution platform scale with stainless steel weighing plate and separate touchscreen display device

Particularly practical when working with toxic, volatile or contaminated substances in glove bags or fume cupboards.

Weighing range: 3 kg
Read-out: 0,01 g
Weighing plate: 228x228 mm

For additional information
see page 100/101

KERN PES 3 1000-1M Robust laboratory and industrial precision balance

Ideally suited for compact, very dense samples, such as those which might be found in road building or the construction industry, for example.

Weighing range: 31 kg
Read-out: 0,1 g
Weighing plate: 250x220 mm

For additional information
see page 36

KERN Analytical balances with Single-cell cutting edge technology

To satisfy stricter requirements for precision, speed, and → **reproducibility** of weight values, monolithic balance cells are increasingly the standard. These are measurement sensors for determination

of weight that are fabricated from an aluminium. These systems distinguish themselves from conventional balance cells in terms of both quality and performance:

- Higher measurement speed
- Stable temperature behaviour
- Higher corner load reliability
- Better measurement precision
- Improved mechanical sturdiness

KERN analytical balances on this measurement principle are designated as using „Single Cell Technology“ (→ **SC TECH**).

To avoid relevant result variations when weighing with high-precision analytical balances, we recommend noting a few basic things:

- Daily → **adjustment**, particularly if there are temperature variations, etc.
- Use of the internal automatic adjustment feature is strongly recommended
- Avoidance of air movement, e.g. open doors, windows, wind protection
- Use of a special weighing table, e.g. **KERN YPS-01**, p. 132
- Use of an ioniser to neutralise electrostatic charges on the items being weighed, e.g. **KERN YBI-01**, p. 132

→ See the glossary on page 158/159

Analytical balance KERN ABS-N · ABJ-NM

- 5** Single-cell advanced technology:
- **Fully automatic manufactured weighing cell from one piece of material**
 - **Stable temperature behaviour**
 - **Short stabilisation time:**
Steady weight values within approx. 3 sec under laboratory conditions
 - **Shock proof construction**
 - **High corner load performance**

The bestseller in analytical balances, now with high-quality single-cell weighing system and EC type approval [M]

Features

- **1** Only ABJ-N: **Automatic internal adjustment** in the case of a change in temperature > 2 °C or time-controlled every 4 hours
- **2** Only ABS-N: **Adjusting program CAL**, external test weights at an additional price, see page 133 ff.
- **Dosage aid:** High-stability mode and other filter settings can be selected
- **Simple recipeweighting and documenting** with a combined tare/print function. In addition, the mixing ingredients for the recipe are numbered automatically and printed out with their corresponding number and weight value

- **Identification number:** 4 numeric positions, printed on calibration protocol
- **Automatic data output** to the PC/printer each time the balance reaches a steady state

Technical data

- Large LCD display, digit height 14 mm
- Dimensions of weighing plate Ø 91 mm
- Overall dimensions
WxDxH 210x340x325 mm
- weighing space WxDxH 174x162x227 mm
- Permissible ambient temperature
10 °C / 30 °C
- Net weight approx. 6 kg

Accessories

- **3** **Data interface RS-232** interface cable included, KERN ACS-A01
- **Protective working cover** standard, can be reordered, KERN ACS-A02
- **Set for density determination** of liquids and solids, KERN ACS-A03
- **Ioniser** to neutralise electrostatic charge, see page 132, KERN YBI-01
- **4** **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 132, KERN YPS-01
- **Suitable printers** see page 130

Analytical balance KERN ALS-A · ALJ-A

03

Precision and price down to a point, with external and internal adjustment

Features

- 1 only ALJ-A: **Automatic internal adjustment** in the case of a change in temperature > 1,5 °C
- 2 only ALS-A: **Adjusting program CAL** for quick setting of the balance accuracy, external test weights at an additional price, see page 133
- Ergonomically optimised keypad** for left and righthanded users
- Large glass draught shield** with 3 sliding doors for easy access to the items being weighed
- Compact size**, practical for small spaces
- Percentage determination**: makes it possible to store a given weight value (100%) and to determine deviations from this target value

- **Weighing with tolerance range**, ideal for portion division, dispensing, grading

Technical data

- Backlit LCDdisplay, digit height 17 mm
- Dimensions of weighing plate Ø 80 mm
- Overall dimensions (incl. draft shield): 210x340x330 mm
- Weighing space WxDxH 160x140x205 mm
- Net weight approx. 5,7 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover**, KERN ALJ-A01
- 3 **Ioniser** to neutralise electrostatic charge, see page 132, KERN YBI-01
- 4 **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 132, KERN YPS-01
- **Set for density determination** of liquids and solids, KERN ALT-A02

Analytical balance KERN AES-N · AEJ-NM

03

Compact high-end analytical balance with useful pipette calibration program

Features

- 1 only AEJ-NM: **Automatic internal adjustment** in the case of a change in temperature > 0,8 °C or time-controlled every 3 hours
- Intuitive pipette calibration function** to ensure data integrity and to minimise the risks in the daily work with your pipettes
- 2 Vmin: 10% of the volume
Va: Arithmetic mean
Es: Systematic error
Vmax: 100 of the volume
Sr: Standard deviation
- GLP/ISO record keeping** of weight values with date, time and serial number
- Higher weighing speed by switching off the last digit

- **Totalizing** of weights (manual/automatic)
- **Modern all glass draft wind shield** for optimal visibility of the weighing object
- **Dispensing mode:** By pressing one key you can set all relevant parameters for this dispensing process

Technical data

- Large backlit LCDdisplay, digit height 17 mm
- Dimensions of weighing plate Ø 85 mm
- Overall dimensions WxDxH 206x335x335 mm
- Weighing space WxDxH 168x160x225 mm
- Net weight approx. 5,4 kg
- Permissible ambient temperature 18 °C / 30 °C

Accessories

- Protective working cover, standard, can be reordered, KERN ALS-A02
- 3 **Set for density determination** of liquids and solids. Step-by-step user guidance, as well as the calculated density shown immediately on the display, similar to illustration, KERN AES-A01N
- **Ioniser** to neutralise electrostatic charge, see page 132, KERN YBI-01
- **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 132, KERN YPS-01
- **Suitable printers** see page 130

Analytical balance KERN ALT-B

03

Analytical balance with extensive recipe database

Features

- **Convenient recipe-weighing:** with the recipe database, in which up to 99 recipes can be stored, each with up to 20 recipe ingredients with name and target value
- **Rapid and efficient operation** thanks to the graphics display
- **Simple plain text user guidance in the display** in the following languages: D, GB, F, I, E, PT
- **Automatic internal adjustment** in the case of a change in temperature > 1,5 °C or time-controlled every 20 minutes
- **Percentage determination:** makes it possible to store a given weight value (100%) and to determine deviations from this target value
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual signal assists with portion division, dispensing or grading

- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable
- **GLP/ISO record keeping** of weight values with date, time and serial number
- **Modern all glass draft wind shield** for optimal visibility of the weighing object

Technical data

- Large backlit LCDdisplay, digit height 15 mm
- Dimensions weighing surface Ø 80 mm
- Dimensions housing WxDxH 210x340x330 mm
- Weighing space WxDxH 160x140x205 mm
- Net weight approx. 5,7 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover,** KERN ALJ-A01
- **Ioniser** to neutralise electrostatic charge, see page 132, KERN YBI-01
- **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, see page 132, KERN YPS-01
- **Set for density determination** of liquids and solids. Step-by-step user guidance, as well as the calculated density shown immediately on the display, KERN ALT-A02
- **Suitable printers,** see page 130

Analytical balance KERN ABT

03

The premium model with single-cell weighing system

Features

- **Automatic internal adjustment** in the case of a change in temperature > 0,5 °C or time-controlled every 4 hours
- **Dosage aid:** High-stability mode and other filter settings can be selected
- **Simple recipeweighing and documenting** with a combined tare/print function. In addition, the mixing ingredients for the recipe are numbered automatically and printed out with their corresponding number and weight value
- **Identification number:** 4 numeric positions, printed on calibration protocol
- **Automatic data output to the PC/printer** every time the balance is steady

Technical data

- Large LCD display, digit height 14 mm
- Dimensions of weighing plate Ø 80 mm
- Overall dimensions WxDxH 217x356x338 mm
- weighing space WxDxH 168x172x223 mm
- Net weight approx. 7 kg
- Permissible ambient temperature 10 °C / 30 °C

Accessories

- **Protective working cover**, standard, can be reordered, KERN ABT-A02
- **Set for density determination** of liquids and solids. The density is indicated directly

Single-cell advanced technology:

- **Fully automatic manufactured weighing cell from one piece of material**
- **Stable temperature behaviour**
- **Short stabilisation time:** Steady weight values within approx. 5 sec under laboratory conditions
- **Shock proof construction**
- **High corner load performance**

on the display, KERN ABT-A01

- **Ioniser** to neutralise electrostatic charge, KERN YBI-01
- **Weighing table** to absorb vibrations and oscillations, which would otherwise distort the weighing result, KERN YPS-01

4 Moisture analysers

KERN Model		Page
DBS	Modern moisture analyser with 10 memories and graphic display	48
DLB	Robust moisture analyser for samples up to 160 g	49
MLB-N	High standard in moisture analysis with graphic-assisted display	50
MLS-N	Moisture analyser with 99 memory possibilities and graphic display	51
DLT	High-end moisture analyser with innovative Windows CE touch® operating system	52/53

Moisture analysing is an integral part of many raw and finished products and has a crucial influence on the quality of the product.

Moisture analysers are used particularly in the food industry, water resource management (sewage plants, etc.), plastics industry, agriculture and the energy industry (bio-energy plants, etc.).

Determining moisture requires a great deal of experience. Depending on the type of sample and the task involved, various drying processes are used.

KERN has concentrated on the most widely-used drying method: halogen drying, which brings many advantages:

- Even warming of the sample from above, without any risk of burning the surface of the sample
- Affordable purchase costs ensure rapid amortisation of the device
- Established temperature ranges from 35 - 200°C

- High measuring precision, up to 0.01 %
- Sufficient spare capacity, weighing range up to 160 g
- Various drying programs (gradual drying, standard drying, stage drying, preheating stage (Boost))

The numerous memories of the KERN moisture analyser are particularly useful, as they hold information on the complete drying processes with drying parameters such as, for example, drying period, drying temperature, display settings, switch off criteria, etc... This saves an enormous amount of time and helps to achieve repeatable results.

On the internet, you will find a practical application handbook containing many examples, field reports, adjustments and tips for each KERN moisture analyser.

Your KERN product specialist will be happy to help:

Moisture analyser KERN DLT

04

High-end moisture analyser with innovative Windows CE touch® operating system

Particularly in the pharmaceutical, food, chemical and construction industries, being able to analyse the moisture content of materials at Goods Inwards and production is an important tool to ensure product quality and robust production processes.

In biogas plants, sewage treatment plants or landfill sites, the drying of biomass has always been extremely important. Controlling the moisture content precisely helps, for example, to reduce transport weights or increase heating values

In the timber industry, statements which can be validated relating to the moisture content and the resulting mechanical and technological characteristics of the wood or the fuel and heating values of wood chips, pellets, etc. are of economic importance

Moisture analyser KERN DLT

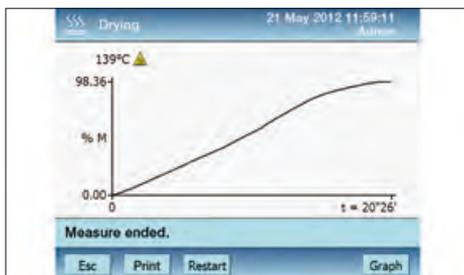

Innovative touchscreen: Large touch-sensitive, backlit screen with very good contrast for easy operation and convenient reading

Clear menu structure with plain text labels on the display. The menu and processes are self-explanatory. This reduces the training times, avoids operating errors and in this way, ensures more efficient, rapid operation.

Colour LCD Display with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm), WxH 11,8x8.8 mm

- 1 Drying process active
- 2 Status bar
- 3 Current temperature
- 4 Current moisture content in % / Display and print-out of moisture-%
- 5 Residual weight in % (progress bar)
- 6 Switch off mode
- 7 Target temperature
- 8 Type of drying Standard
- 9 Drying rate
- 10 Drying process active

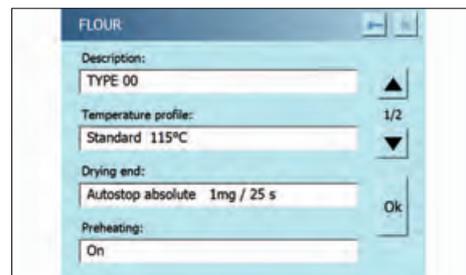

Graphic display of the drying curve shows the progress of the drying process in real time and can be used by the operator to check and evaluate the result

Net weighing assistance to a defined target value [g] with adjustable tolerance range 1% - 25% of the target value

- Halogen quartz glass heater 400 W
- Simple „step-by-step“ user guidance in the display in the following languages D, GB, F, I, E, PT

Balance contains memories for automatic sequence of 300 drying programs (12 free characters for each memory) as well as a further 100 memories for drying processes which have been carried out, which can be recalled individually

Touchless tare function: just give it a wave. 2 freely-assignable movement sensors for TARE/Print/OFF

- The last value measured remains on the display until it is replaced by a new measurement
- 10 sample plates included
- Application manual: On the website there is a practical application handbook for each KERN moisture analyser, which contains many examples, field reports, settings and tips

"Whether it's in the office or on the production line, the practical and uncomplicated bench scales from KERN increase efficiency and thereby also protect your wallet – how clever is that!"

5 Bench scales

KERN Model		Page
ECE ECB	Easy, mobile and economical	57
FCE	Affordable bench scale – mobile, practical, lightweight	58
GAB-N	Price-performance-winner with EC type approval [M]	59
FCB	Bench scale with second display on the back of the scale	60
FKB-A	Bench scale up to 65 kg with large weighing plate	61
FCB-B	Bench scale with laboratory accuracy	62
FKB FKB-M	Large, high resolution bench scale – also with EC type approval [M]	63
FKT	The future begins here – touchscreen industrial scale with enormous range of functions, also with EC type approval [M]	64/65

Compact industrial weighing technology

Thanks to its compact dimensions, low weight, robust internal mechanism and the fact that it can be operated independent of mains power, bench scales can be used not only in a stationary situation, but also as mobile scales.

With weighing ranges between 3 kg - 65 kg, bench scales can cover a wide range of applications. Whether as a commissioning scale in the warehouse, for inventory purposes, on a production work station, in quality control, in small workshops, in service cars or in sales offices, bench scales are the first choice.

Durable stainless steel weighing plates, easy to read backlit displays, useful functions such as piece counting, manual tare - subtraction of a known container weight, or → **interfaces** to PC and printer, all these support the user in their daily work.

→ **Dual range** and triple range scales have a particularly wide range of applications. With these scales, the total weighing range is subdivided into 2 or 3 subranges and begins with a high resolution read-out in the fine weighing range. If this range is exceeded the balance automatically switches to the higher weighing range with the lower resolution read-out.

All KERN bench scales have an adjustment program (CAL) to adjust the accuracy. In this way, the high level of accuracy is guaranteed at all times, even during harsh everyday use. Find the right test weights for you, from page 133.

Touchscreen balances

The newest development for an even greater level of ease of use is intuitive touchscreen operation, which is being integrated into new KERN models, see page 30, 52, 64, 100.

→ see the glossary on page 158/159

Bench scale KERN GAB-N

05

Application examples:

- Small industrial scale for pharmacies
- Hand mixtures of tea, coffee, chocolates
- Portion division of dough, meat, fish, poultry, mixed salads in cafeterias etc.
- Weighing of fruits on site
- High-precision industrial applications

Note: In commercial trade, official verification duties exist

Price-performance-winner with EC type approval [M]

Features

- **Compact size**, practical for small spaces
- **High mobility:** thanks to battery operation (optional)
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual signal assists with portion division, dispensing or grading
- **Totalizing** of counting operations

Technical data

- Large backlit LCDdisplay, digit height 24 mm
- Dimensions of weighing plate (stainless steel) WxD 294x225 mm
- Overall dimensions WxDxH 320x330x125 mm
- Net weight approx. 3 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover**, KERN CFS-A02

- **Signal lamp** for visual support of weighing with tolerance range, KERN CFS-A03
- **Rechargeable battery pack internal**, operating time approx. 40 h, charging time approx. 12 h, charge condition indicator using three-colour LED, KERN GAB-A04
- **2nd data interface**, Y cable for parallel connection of two terminal devices to the RS 232 interface of the balance, e.g. of a printer, signal lamp etc. KERN CFS-A04
- **Suitable printers** see page 130

Bench scale KERN FCB

Bench scale with second display on the back of the scale

Features

- **Second display** on the rear of the balance
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **High mobility:** Battery operation, compact construction and low weight make this balance ideal for use in several locations (production, warehouse, dispatch department, ...)

Technical data

- Backlit LCD display, digit height 25 mm
- Dimensions of weighing plate (stainless steel) WxD 252x228 mm
- Overall dimensions WxDxH 270x345x106 mm
- Optional battery operation, battery (9 V Block) not standard, operating time approx. 12 h
- Net weight approx. 3 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be reordered, KERN FCB-A02
- **Rechargeable battery pack internal**, operating time approx. 5 h, charging time approx. 10 h, KERN FCB-A01
- **Suitable printers** see page 130

Bench scale KERN FKB-A

05

Large bench scale up to 65 kg with large weighing plate

Features

- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Particularly practical:** thanks to the large weighing ranges and compact dimensions, you can weigh heavy loads in the most restricted of spaces
- Freely programmable weighing unit, e.g. display directly in special units such as length of wire g/m, paper weight g/m², or similar

Technical data

- Large backlit LCD display, digit height 25 mm
- Dimensions of weighing plate (stainless steel) WxD 340x240 mm
- Overall dimensions WxDxH 350x390x120 mm
- Optional battery operation, 9 V Block, not included, operating time approx. 12 h
- Net weight approx. 6,5 kg
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be reordered, KERN FKB-A02
- **Rechargeable battery pack internal**, operating time approx. 8 h, charging time approx. 10 h, KERN PCB-A01
- **Suitable printers** see page 130

Bench scale KERN FCB-B

05

Bench scale with laboratory accuracy

Features

- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight, details see page 79
- **Percentage determination:** makes it possible to store a given weight value (100%) and to determine deviations from this target value

Technical data

- Backlit LCDdisplay, digit height 18 mm
- Dimensions of weighing plate (stainless steel) WxD 253x228 mm
- Overall dimensions WxDxH 270x345x106 mm

■ Price reduction

Bench scale KERN FKT

05

Touchscreen industrial scale with enormous range of functions

Display at full size, operating mode Counting

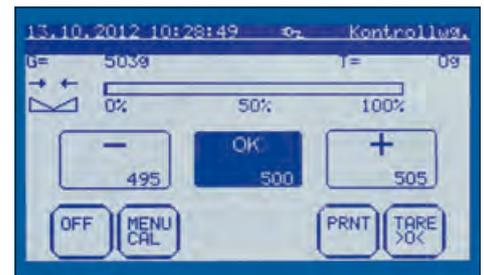

Clear menu structure with the keys labelled with plain text and touch-sensitive display
The menu and processes are self-explanatory. This reduces the training times, avoids operating errors and in this way, ensures more efficient functionality

Easy input of text and values
e.g. item descriptions, user name, weights for tare containers, etc. using large keypad

40 memories for each mode, for checkweighing, pre-tare, reference weight, target weight when dispensing etc.

Weighing with tolerance range (checkweighing): a visual and audible signal helps with portion division, dispensing or grading

Bench scale KERN FKT

Features

- **Innovative touchscreen:** Large touch-sensitive, backlit screen with very good contrast for easy operation and convenient reading
- **Maximum transparency:** All function keys are labelled with plain text which ensures that they are easily understood. The menu tree overlay in the info bar allows you to see at a glance which function is currently in use
- **Advantages:**
 - No more errors or lost time through keys which have several functions or unclear markings
 - Large keys, which can also be operated while wearing gloves
- **Convenient recipe weighing:** 5 recipes each with 7 components can be stored in plain text
- **Hook for underfloor weighing** to weigh hanging loads standard for models with weighing plate sizes **B**

Standard
Data interfaces

- **Data interface RS-232**
To connect the balance to a printer, PC or network
- **Control outputs (optocoupler, digital I/O)**
to connect relays, signal lamps, valves etc. (35V / 80 mA)

Technical data

- Back-lit LCD graphic display with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm)
- Dimensions of weighing plate WxD
 - A** 253x228 mm
 - B** 340x240 mm, see larger picture
- Overall dimensions WxDxH
 - A** 270x345x106 mm
 - B** 350x390x120 mm
- Optional battery operation, only for models with weighing plate sizes **B**, 6 x 1.5 V Size C not included, operating time approx. 20 h
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be reordered, for models with weighing plate sizes
 - A** KERN FCB-A02
 - B** KERN FKB-A02
- **Rechargeable battery pack external**, operating time up to 10 h, charging time approx. 10 h, KERN KS-A01
- **Signal lamp** for visual support of weighing with tolerance range, KERN IKT-A04
- **RS-232/Ethernet adapter**, to connect balances with an RS 232 interface to a network, using Ethernet, details see page 131, KERN YKI-01
- **Suitable printers** see page 130

KERN balances - not scared of water at all!

Balances used in industrial situations are often subject to extreme stresses and strains. Water, oils, fats, varnish, dust, dirt, flour, small parts, etc. are all natural enemies of a balance. In industries such as the chemical, pharmaceutical, food, manufacturing industries, etc. balances must be able to cope with these stresses without this affecting their performance.

For use in such harsh environmental conditions, levels of protection are defined, which specify which environmental stresses a system can be exposed to in regards to the level of contact, foreign body and moisture protection, without causing damage to the unit. These levels of protection are described in the following standard: „DIN EN 60529: types of protection, housing“. The IP code usually consists of a two-digit combination, which gives the relevant level of protection, e.g. IP68. The first digit specifies the protection level for contact and protection against foreign bodies (protection against dust), the second digit is for the water and moisture protection (protection against splashes of water).

KERN stainless steel balances and balances with special IP protection will impress you with their sophisticated design coupled with high-quality material, robust construction and perfect finish. They have been specially

developed for use in hygienically sensitive applications, amongst other applications. Cleaning is easy and hygienic because of the smooth upper surfaces and the materials used.

The weighing ranges for the models available with the special level of protection range from 0.5 kg – 1.5 t and thereby cover the majority of industrial applications, such as for example, portioning of food, weighing ingredients, filling cans, bottles, ... in the food sector, weighing and checking of oily or greasy parts in production or weighing and mixing of paints, lacquers and solvents in decorating companies and paint shops.

Your KERN product specialist will be happy to help:

Danielle Bergfeld
Product specialist stainless steel scales

Extract from the standard: „DIN EN 60529: types of protection, housing“:

KERN-Pictogram	1. Number	Specification	2. Number	Specification
	6	Dustproof	5	Designed for temporary contact with liquids. Use a damp cloth for cleaning.
	6	Dustproof	7	Designed for temporary use in wet areas. Temporary submersion is possible.
	6	Dustproof	8	Designed for continuous use in wet areas. Submersion is possible.

IP protected bench scale KERN WTB-N

06

Ideal in the food industry, protected by IP65, easy to clean

Features | **Technical data** | **Accessories**

- **Suitable for the ever-increasing hygienic requirements in the food industry**
- **IP65:** Protected against dust and water splashes (only when using rechargeable battery pack)
- **1 Second display** on the rear of the balance
- **Carrying grips on the underside** of the scale for easy transportation
- **Innovative weighing with tolerance range** (Checkweighing): The colour of the display changes depending on the weight (too light/ok/too heavy) and is aid to help with portion division, dosing and grading
- **High mobility** thanks to its rechargeable batteries (optional) and low weight
- **Compact size**, practical for small spaces

- Large backlit LCDdisplay, digit height 25 mm
- Dimensions of weighing plate WxD 260x200 mm
- Overall dimensions WxDxH 286x316x126.5 mm
- Net weight approx. 3,2 kg
- Permissible ambient temperature -10 °C / 40 °C

- **Rechargeable battery pack internal**, operating time up to 50 h without backlight, charging time approx. 12 h, charge condition indicator on display, can be reordered, KERN WTB-A01N
- **2 Tare pan made from stainless steel**, ideal for weighing loose fruit and vegetables, WxDxH 370x240x20 mm, KERN RFS-A02

Stainless steel bench scales KERN FOB · FOB-S

KERN FOB

KERN FOB-S

Compact stainless steel scale, also with EC type approval [M]

Features

- **Stainless steel design** of the housing and weighing plate. Its smooth surfaces make it simple to clean
- only FOB, -L, -M: **Increased protection against humidity** by means of waterproof silicone sealing of the load cell, electronics and soldering joints
- **High mobility:** thanks to compact, flat construction, it is suitable for use in several locations (kitchen, sales office, market stall, ...)
- only FOB, -L: **Net/Gross weight:** to control the consumed weighing range at the touch of a key
- only FOB-S: Ready for use: batteries (9 V Block) standard, operating time approx. 20 h. AUTO-OFF function to preserve the batteries, can be switched off

Technical data

- Large backlit LCDdisplay, digit height 25 mm
- Dimensions of weighing plate, stainless steel WxD
 - A** 120x150 mm, **B** 175x160 mm
 - C** 215x215 mm, see larger picture left
- Overall dimensions WxDxH
 - A** 170x150x40 mm, **B** 175x235x60 mm
 - C** 220x305x80 mm
- Net weight
 - A** approx. 0,65 kg, **B** approx. 1,95 kg, **C** approx. 3,3 kg
- Permissible ambient temperature
 - A** 10 °C / 40 °C; **B, C** -10 °C / 40 °C

Accessories

for FOB, -L, -M:

- **Protective working cover** over keyboard and housing, standard (not for FOB-S), can be reordered, for models with weighing plate sizes
 - B** KERN FOB-A05
 - C** KERN FOB-A06
- **Rechargeable battery pack internal,** charge condition indicator using three-colour LED, for weighing plate size
 - B** operating time approx. 24 h, charging time approx. 8 h, KERN FOB-A07
 - C** operating time approx. 30 h, charging time approx. 14 h, KERN FOB-A08

for FOB-S:

- **Mains adapter external** not included, can be reordered, KERN FOB-A09

■ New model

IP protected bench scale KERN FFN-N

Robust, space-saving bench scale, protected by stainless steel and IP65, also with EC type approval [M]

Features

- **1 Ideal for the food industry**
- **2 Ideal for the robust industry**
- **High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department, ...)
- **Stainless steel housing,** rust-proof and easy to clean
- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results
- **Carrying grips on the underside** of the scale for easy transportation

- **3 IP65:** Protected against dust and water splashes (only when using rechargeable battery pack)

Technical data

- Large LCD display, digit height 25 mm
- Dimensions of weighing plate (stainless steel) WxD 230x190 mm
- Overall dimensions 230x300x130 mm
- Rechargeable battery pack internal, standard, operating time up to 50 h, charging time approx. 12 h
- Net weight approx. 3,2 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Tare pan made from stainless steel,** ideal for weighing loose small parts, fruit, vegetables etc., WxDxH 370x240x20 mm, KERN RFS-A02

IP protected platform scale KERN SFE

Platform balance with dust and spray protection IP65 and with EC type approval [M]

Features

- Robust stainless steel display device, ideal for industrial applications, for easy and hygienic cleaning
- **Load cells aluminium, silicone-coated.**
IP65: Protected against dust and water splashes
- **Stainless steel-weighing plate,** painted steel base
- **Display device KERN KFE-TM,** details see page 113
- **Flexible positioning of display device:** eg. free-standing or mounted to the wall
- **Weighing with tolerance range (check-weighing):** Input of an upper/lower limit value. A visual and audible signal assists with portion division, dispensing or grading

- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels (only for non-verified models)

- Rechargeable battery pack internal, standard, operating time approx. 35 h without backlight, charging time approx. 12 h. Charge condition indicator on display
- Permissible ambient temperature -10 °C / 40 °C

Technical data

- Large backlit LCDdisplay, digit height 22 mm
- Dimensions of weighing plate WxDxH
A 300x240x100 mm
B 400x300x128 mm
- Dimensions of display device WxDxH 195x118x83 mm
- Cable length of display device approx. 1,5 m

Accessories

- **Tare pan made from stainless steel,** ideal for weighing loose screws, small parts etc., WxDxH 370x240x20 mm, KERN RFS-A02
- **Stand** to elevate display device, height of stand approx. 200 mm, KERN SFE-A01

Stainless steel platform scale KERN SFB-H

Stainless steel platform balance with dust and spray protection to IP65 and EC type approval [M]

Features

- **1 Ideal for the robust industry**
- **2** Scale entirely out of stainless steel
- **Load cell stainless steel**, silicone-coated.
Note: Silicone is not suitable for contact with aggressive substances such as acids etc. or for continuous use in wet areas.
- **Stand** to elevate display device, standard, for models with weighing plate sizes
A height of stand approx. 200 mm
B height of stand approx. 400 mm

- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results

Technical data

- Large backlit LCD display, digit height 52 mm
- Dimensions of weighing plate (stainless steel) WxDxH
A 300x240 mm
B 400x300 mm, see larger picture
- Dimensions of display device WxDxH 266x165x96 mm

- Cable length of display device approx. 2 m
- Rechargeable battery pack internal, standard, operating time approx. 80 h, charging time approx. 12 h
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Data interface RS-232**, interface cable included, approx. 1.5 m, must be ordered at purchase, KERN KFN-A01
- **Suitable printers** see page 130

Stainless steel platform scale KERN SFB

06

Stainless steel platform balance with IP65, XL platform and EC type approval [M]

Features

- **Ideal for the robust industry. Industrial quality:** robust version, easy to clean. Suitable for the everincreasing hygienic requirements in the food industry
- Scale entirely out of stainless steel
- **Load cell stainless steel**, silicone-coated. Note: Silicone is not suitable for contact with aggressive substances such as acids etc. or for continuous use in wet areas.
- **Flexible positioning of display device:** eg. free-standing or mounted to the wall
- Superior display size: digit height 52 mm. Bright backlight for easy reading of weight, even in poor lighting conditions

- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results

Technical data

- Large backlit LCDdisplay, digit height 52 mm
- Dimensions of weighing plate (stainless steel) WxDxH
 - A 500x400 mm, see larger picture
 - B 650x500 mm
- Dimensions of display device WxDxH 266x165x96 mm

7 Price computing scales

KERN Model	Page
RXB Entry level model for your retail business, with EC type approval [M]	75
RFB Compact entry level retail scale with dust and spray protection IP65 and EC type approval [M]	76
RPB Retail scale with EC type approval [M] and memories for article prices	77
RFS Retail scale with integrated receipt printer, with EC type approval [M]	78

Price computing scales are used anywhere where the price of goods is calculated dependent on the weight of the goods. These scales must be → **verified** in accordance with European Directive 2009/23/EEC. Usually, these scales are in verification class **M III**.

KERN mobile retail scales are compact in size and therefore save space on the sales counter. Thanks to the simple menu structure they are easy to use – saving time and money.

Fitted with mains, battery or rechargeable batteries as standard, price computing scales can be used in retail shops as well as on mobile sales stalls. All price computing scales from KERN have three displays giving you all the important information at a glance:

- Weight displayed in kg (verifiable)
- Unit price in €/kg or €/100 g
- Total price in €

KERN entry level retail scales have direct access keys (PLU). The sales item with the relevant price can be stored against this PLU. In this way, frequently used sales items can be recalled as quick as a flash. This speeds up customer service and reduces waiting times.

→ See the glossary on page 158/159

Price computing scale KERN RXB

Application examples:

- retail shops
- market places
- farm shops
- pick your own fruit and vegetable sales

Note: In commercial trade, official verification duties exist

Entry level model for your retail business, with EC type approval [M]

Features

- **1 Elevated display** backlit, revolving on column, height of stand approx. 540 mm, only RXB-HM, must be ordered at purchase
- **2 Second display** on the rear of the balance (only with models without the elevated display)
- **Three displays** for weight (verifiable), unit price, total price
- **Unit price can be switched** from €/kg to €/100 g
- **FIX key:** Unit price can be stored for further weighings of the same article
- **Energy management:** Backlight turns off after 5 sec, can be switched off

- **Soil-resistant construction** with water channels at the edge of the housing and sealing rings over the upper housing inlets

Technical data

- Large backlit LCD displays, digit height 18 mm
- Dimensions of weighing plate, stainless steel WxD 300x225 mm
- Overall dimensions WxDxH 300x330x110 mm
- Rechargeable battery pack internal, standard, operating time approx. 200 h, charging time approx. 8 h, Charge condition indicator using three-colour LED
- Net weight approx. 4,4 kg

- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be reordered, KERN CXB-A01
- **Tare pan made from stainless steel**, ideal for weighing loose fruit and vegetables, WxDxH 370x240x20 mm, KERN RFS-A02

Price computing scale KERN RPB

Retail scale with EC type approval [M] and memory for article prices

Features

- **1 Elevated display** backlit, revolving on column, height of stand approx. 530 mm, only RPB-HM, must be ordered at purchase
- **2 Second display** on the rear of the balance, standard (only with models without the elevated display)
- **Three displays** for: weight (verifiable), unit price, total price
- **Unit price can be switched** from €/kg to €/100 g
- **Memory (PLU) for 10 article prices**
- **Auto-clear-key:** Unit price entry is automatically set to zero when scale is unloaded

- **3 High mobility** thanks to its rechargeable batteries (optional) and low weight

Technical data

- Large backlit LCD displays, digit height 20 mm
- Dimensions of weighing plate (stainless steel) WxD 294x225 mm
- Overall dimensions WxDxH 320x350x125 mm
- Net weight approx. 3,9 kg
- Permissible ambient temperature -10 °C / 40 °C

Application examples:

- retail shops
- market places
- farm shops
- pick your own fruit and vegetable sales

Note: In commercial trade, official verification duties exist

07

Accessories

- **Protective working cover** standard, can be reordered, KERN CFS-A02
- **Rechargeable battery pack internal**, operating time approx. 80 h without back-light, charging time approx. 14 h (internal charging with mains adapter). AUTO-OFF function to preserve the battery, can be switched off. Charge condition indicator using three-colour LED, KERN GAB-A04
- **Tare pan made from stainless steel**, ideal for weighing loose fruit and vegetables, WxDxH 370x240x20 mm, KERN RFS-A02

Price computing scale KERN RFS

07

Retail scale with integrated receipt printer, with EC type approval [M]

Features

- **Easy to use:** user-friendly processing of PLU, price entry, price change etc. using the alphanumeric keyboard
- **High mobility:** thanks to high battery operating time (up to 50 h, without print function), compact, flat construction and low weight, it is ideally suited for use on weekly markets, for independent market traders etc.
- **Internal printer:** Robust high-speed printer. Fast and easy change of paper rolls thanks to innovative paper compartment construction
- Print out of all weighing data in all languages in the Euro-zone (except GR, CZ)
- **Unit price can be switched** from €/kg to €/100 g
- **Auto-clear-key:** Unit price entry is automatically set to zero when scale is unloaded
- **28 PLU** for frequently recurring article prices, as well as 99 additional memories (PLU)
- **Elevated display** backlit, on column, height approx. 470 mm
- **Three displays** for weight (verifiable), unit price, total price
- **Note:** This model does not have VAT calculation and -output, daily or weekly totals memory, label printing function, print out of PLU lists, multi-operator function, print out of headers/footers

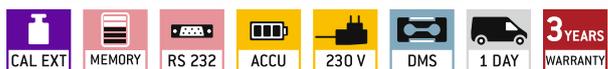

Technical data

- Dimensions of weighing plate (stainless steel) WxD 370x240 mm
- Overall dimensions WxDxH 370x410x470 mm
- Net weight approx. 7 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Thermal receipt rolls** (pack of 10), width 56 mm, Ø 51 mm, KERN RFS-A10
- **Tare pan made from stainless steel**, ideal for weighing loose fruit and vegetables, WxDxH 370x240x20 mm, KERN RFS-A02

KERN Model	Page
CXB	Entry level model in professional counting, also with EC type approval [M], counting resolution of 30,000 points 81
CPB	The economical model, also with EC type approval [M], counting resolution of 60,000 points 82
CFS	Professional counting scale with 100 item memories and second balance interface, counting resolution up to 75,000 points 83
CKE	Easy to use, self-explanatory counting balance with laboratory accuracy, counting resolution up to 361,000 points 84
IFS-N	Industrial counting scale with convenient keypad for easy data entry, counting resolution up to 60,000 points 85
CDS	Easy to use industrial counting scale for heavy loads, counting resolution up to 300,000 points 86
CCS	Counting the smallest parts in the largest quantities, counting resolution up to 6 Mio. points 87

Counting, doing it right!

In order to be able to count correctly, you must take a few parameters into account when you first start to consider selecting a counting scale.

Smallest part weight „PW min“

This is the smallest piece weight the scale will accept for piece counting and displaying piece count. In practice, however, depending on the required accuracy, using higher numbers of parts is recommended for the smallest counted parts, see „Smallest reference weight“.

→ Counting resolution

Describes the maximum quantity which can be counted with a counting accuracy of 1%, with the minimum variation of item weights and a sufficiently large reference quantity (20 pieces with counting resolution $\leq 60,000$ points, 50 pieces from 60,000 - 150,000 points, 100 pieces $\geq 150,000$ points). This is therefore a measure of the quality of the counting scale.

Recommended → reference quantity

The weight tolerances of the pieces to be counted are the largest sources of error when counting. Therefore, at the start of every counting procedure, establish an average weight, the so-called reference weight, by placing several pieces on the scale, the so-called reference quantity.

Usually this would be:

- 5 pieces >> often sufficient
- 10 pieces >> common practise
- 20+ pieces >> with large range of piece weights

The „automatic reference optimisation“ function increases the reference quantity in levels, whereby the average piece weight is optimised step by step. This contributes considerably to the accuracy of the subsequent counting processes.

Smallest → reference weight

Without automatic reference optimisation:

- 5 x PW min >> for low level requirements
- 10 x PW min >> common practise
- 20 x PW min >> recommended value with large range of piece weights

With automatic reference optimisation:
2 x PW min >> generally sufficient

Which counting scale for which application?

Simple counting scale

with self-explanatory user guidance on the keyboard. The graphics control panel enables you to start working immediately, without having to study the user manual. Easy handling, value for money.

Professional counting scale

with 3 separate displays for reference weight (average weight of the pieces), total weight of all pieces and total piece count of all pieces. Integrated memories are very useful, e.g. for container weight, item number, reference weight as well as audible and visual counting assistance and an alphanumeric key pad for easy data entry.

A special tip for counting large quantities: Counting systems

The weighing ranges of bench counting scales are often not sufficient to count large quantities, units, items on pallets, etc. This is where high-performance counting systems come into their own, as these combine a high-precision reference balance with a high-capacity bulk scale.

→ See the glossary on page 158/159

Counting scale KERN CXB

Entry level model in professional counting, also with EC type approval [M], counting resolution of 30,000 points

Features

- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight
- **Programmable using numerical key pad:**
 - known reference weight
 - required reference quantity
- **Three displays** for
 - Weight (verifiable)
 - Reference weight
 - Total weight
- **Audible Fill-to-target:** target quantity or target weight can be programmed. When the target value is reached, a signal will sound

- **Counting results memory:** adds up all individual counting operations, result is shown in total weight and total pieces
- **Energy management:** Backlight turns off after 5 sec
- **Soil-resistant construction** with water channels at the edge of the housing and sealing rings over the upper housing inlets
- **PRE-TARE function** for manual subtraction of a known container weight, which can be saved

Technical data

- Large backlit LCD displays, digit height 18 mm
- Dimensions of weighing plate (stainless steel) WxD 300x225 mm
- Dimensions housing WxDxH 300x330x110 mm
- Rechargeable battery pack internal, standard, operating time approx. 200 h without backlight, charging time approx. 8 h, charge condition indicator on display
- Net weight approx. 4 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing, standard, can be reordered, KERN CXB-A01

Counting scale KERN CPB

The economical model, also with EC type approval [M], counting resolution up to 60,000 points

Features

- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Target piece input** check-weighing with an audible signal
- **Counting results memory:** adds up all individual counting operations, result is shown in total weight and total pieces
- **Audible Fill-to-target:** target quantity or target weight can be programmed. When the target value is reached, a signal will sound

- **High mobility:** thanks to battery operation (optional), compact, flat construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department,...)

Technical data

- Large backlit LCD displays, digit height 20 mm
- Dimensions of weighing plate (stainless steel) WxDxH 294x225 mm
- Overall dimensions WxDxH 320x350x125 mm
- Net weight approx. 3,9 kg
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover,** KERN CFS-A02
- **Rechargeable battery pack internal,** operating time up to 90 h without backlight, charging time approx. 14 h, can be reordered, KERN GAB-A04
- **Signal lamp** for visual support of weighing with tolerance range, KERN CFS-A03
- **2nd data interface,** Y cable for parallel connection of two terminal devices to the RS 232 interface of the balance, e.g. of a printer, signal lamp etc. KERN CFS-A04
- **Suitable printers** see page 130

Counting scale KERN CFS

Professional counting scale with 100 item memories and optional second balance interface, counting resolution up to 75,000 points

Features

- **Memory (PLU) for 100 items** with additional text, reference weight and tare weight, e.g. of a container
- **Weighing with tolerance range** (checkweighing), ideal for portion division, dispensing, grading, only in weighing and counting mode
- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Fill-to-target function:** Programmable target quantity or target weight. An acoustic and visual signal will be displayed when the target value is reached
- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight

- **Interface for second balance** to construct a high-resolution counting system, e.g. with weighing bridges KFP V20 (see page 114)

Technical data

- Large backlit LCD displays, digit height 20 mm
- Dimensions of weighing plate WxD
 - A** 294x225 mm
 - B** 240x370 mm
- Dimensions housing WxDxH

■ New model

Counting scale KERN CKE

Easy to use, self-explanatory counting balance with laboratory accuracy, counting resolution up to 361,000 points

Features

- **Self-explanatory graphic control panel**, even without operating instructions, the counting process can be understood immediately.
 - no learning time = reduces costs
 - ideal for untrained users
 - visualised process means that operating errors are avoided
- The 4 steps are carried out from left to right:
 - 1 Place the empty container onto the weighing plate and tare by pressing the TARE key
 - 2 Place the reference quantity for the goods to be counted into the container (5, 10, or 20 pieces)
 - 3 Confirm the selected reference quantity by pressing the key (5, 10 or 20)
 - 4 Pour in the goods to be counted.

- The number of pieces will immediately be shown on the display
- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight
- **Two balances in one:** Switching from counting mode to weighing mode at the touch of a button

Technical data

- Large backlit LCD display
 - A digit height 9 mm
 - B digit height 18 mm
- Dimensions of weighing plate (stainless steel) WxD
 - A 150x170 mm
 - B 340x240 mm, see larger picture
- Overall dimensions WxDxH
 - A 167x250x85 mm
 - B 350x390x120 mm

- Optional battery operation for models with weighing plate sizes B, batteries (6 x 1.5 V Size C) not standard, operating time approx. 70 h
- Net weight for models with weighing plate sizes
 - A approx. 1,4 kg
 - B approx. 6,5 kg
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over keyboard and housing standard, can be reordered, for models with weighing plate sizes
 - A KERN PCB-A05
 - B KERN FKB-A02
- **Rechargeable battery pack external**, operating time up to 25 h, charging time approx. 10 h, KERN KS-A01
- **Rechargeable battery pack internal** only for models with weighing plate sizes A, operating time approx. 25 h, charging time approx. 10 h, can be reordered, KERN KB-A01N
- **Suitable printers** see page 130

Counting scale KERN IFS

Industrial counting scale with convenient keypad for easy data entry, now with counting resolution to 60,000 points

Features

- **Industrial quality:** because of its stable construction and robust design, it is ideal for continuous use in industrial applications
- **Benchtop stand incl. wall mount** for display device as standard
- **Precise counting:** The manual optimisation of reference weight gradually improves the average value of the piece weight
- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results
- **Totalizing** of counting operations

Technical data

- Backlit LCD displays, digit height 16,5 mm
- Dimensions of weighing plate (stainless steel) WxDxH
 - A** 300x240x128 mm
 - B** 500x400x137 mm
 - C** 650x500x142 mm, see larger picture
- Dimensions of display device WxDxH 260x150x65 mm
- Cable length of display device approx. 2,5 m
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **1 Stand** to elevate display device, height of stand approx. 330 mm, KERN IFB-A01
height of stand approx. 600 mm, for models with weighing plate sizes **B** and **C**, KERN IFB-A02
- **Protective working cover** standard, can be reordered, KERN KFB-A02
- **Rechargeable battery pack internal**, operating time up to 30 h, charging time approx. 12 h, can be reordered, KERN KFS-A01
- **Suitable printers** see page 130

Counting scale KERN CDS

Easy to use industrial counting scale for heavy loads, counting resolution up to 300,000 points

Features

- **Self-explanatory graphic control panel,** Even without operating instructions, the counting process can be understood immediately
 - No learning time = reduces costs
 - Ideal for untrained users
 - Visualised process means that operating errors are avoided
- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight

Counting system KERN CCS

Information on other high-capacity bulk balances, such as, for example, pallet scales, drive-through scales or floor scales is available on request, for information on other counting systems with the KERN CFS reference balance (d = 0.1 g), please refer to the website.

Counting the smallest parts in the largest quantities, counting resolution up to 6 Mio. points

Features

- With this highly-accurate KERN CCS counting system you can replace a large spectrum of individual counting scales

Reference scale KERN CFS:

This professional KERN CFS counting scale, which can also be used as a stand-alone scale, meets even the highest demands for accuracy, weighing range and volume of items, by connecting it to a high-capacity weighing bridge

- **Programmable using numerical key pad:**
 - required reference quantity
 - known reference weight
- **Memory (PLU) for 100 items** with additional text
- **Fill-to-target function:** Programmable target weight. An acoustic and visual signal will be displayed when the target value is reached

- **Precise counting:** The automatic optimisation of reference weight gradually improves the average value of the piece weight
- Details page 83

Quantity scale KERN KFP: The high-accuracy quantity counting takes place on the weighing platform (= weighing bridge) KERN KFP

- **Stainless steel platform,** Steel substructure lacquered
- **Aluminium singlepoint load cell** (1 x 3000 e), IP65 protection
- Details page 114

Technical data

KFP:

- Dimensions of weighing plate (stainless steel) WxDxH
 - A 400x300x128 mm B 500x400x137 mm
 - C 650x500x142 mm
- Connection cable approx. 1,5 m

CFS:

- Large backlit LCD displays, digit height 20 mm
- Overall dimensions WxDxH 320x350x125 mm
- Dimensions of weighing plate (stainless steel) WxD 294x225 mm
- Net weight approx. 3,8 kg

Accessories

- **Reference scale** also available separately, details see page 80, KERN CFS 6K0.1
- **Rechargeable battery pack internal,** operating time approx. 60 h, charging time approx. 14 h, KERN GAB-A04, € 40,-
- **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, KERN CFS-A03
- **2nd data interface,** Y cable for parallel connection of two terminal devices to the RS 232 interface of the balance, e.g. of a printer, signal lamp etc. KERN CFS-A04
- **Suitable printers** see page 130

9 Platform scales

KERN Model		Page
EOL	All-round platform scale with the best price performance ratio	91
EOB	The bestseller in parcel- and veterinary scales, also with XL platform, now with higher resolution	92
EOS-F	No need for a cable with KERN! Wireless communication between the platform and display device for maximum flexibility	93
DE-D	Multi functional scale with IP65 display device	94/95
IFS-D	The industrial scale for professionals	96
IFB	Robust platform scale with EC Type approval [M]	97
DS	Industrial scale with laboratory accuracy, also with EC Type approval [M]	98
ILS	High-resolution industrial scale for the most precise results up to 50 kg, also with EC type approval [M]	99
IKT	Touchscreen platform scale with enormous range of functions, also with EC Type approval [M]	100/101

Platform scales - the all-rounder in industrial scales

In the KERN range there are portable, affordable entry level models for weighing post or parcels, high-quality models with a high → *IP protection* and → *verification* for trade applications, up to top level models with touchscreen technology for complex recipe or checkweighing applications with relay control - for each application we have the right platform scale.

The benefits of platform scales are clear for all to see:

- Weighing range from 3 kg - 300 kg
- Robust platform construction for the harshest industrial use
- Versatile, available with column
- High overload protection
- Stainless steel weighing plate, shock proof and easy to clean
- Display device can be positioned separately, e.g. wall-mounted, on a column or next to the platform. This guarantees that you always have a clear view of the display even with bulky items on the scale
- Large selection of platform sizes.

In order to fulfil the diverse requirements of our industrial customers, KERN platform scales have a large number of practical functions. From counting and recipe functions via → *data interfaces* to connecting balances in a network or connecting with a PC or printer through right to useful battery operation for mobile use. The „Dynamic Weighing“ function is particularly useful for industrial weighing and guarantees stable results even when the location is unstable or when weighing animals – a true all-rounder.

The newest development for an even greater level of ease of use is the wireless communication between the platform and display device, giving the highest level of flexibility – you can weigh at the location of installation and read the weight up to 20 m away.

Particularly practical: the touchless tare function means that, by using movement sensors, you can tare without having to touch the balance which is useful when working with gloves or dirty hands, see page 93.

→ See the glossary on page 158/159

Platform scales KERN EOL · EOE

KERN EOL

KERN EOE

Entry level platform scales with the best price-performance ratio

Features

- **Simple and convenient 4-key operation**

EOL:

- **Particularly flat design**

EOE:

- **Wall mount** for display device standard
- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals

Technical data

- Large LCD display, digit height 25 mm
- Weighing plate steel lacquered
- Optional battery operation

EOL:

- Dimensions of display device WxDxH 160x90x32 mm
- Ready for use: 9 V Block included, operating time approx. 60 h
- Permissible ambient temperature 5 °C / 35 °C

EOE:

- Dimensions of display device WxDxH 210x110x45 mm
- Permissible ambient temperature 10 °C / 35 °C

Accessories

EOL:

- **Mains adapter external** not included, can be reordered, KERN 440-902

EOE:

- **Ascending ramp** incl. pair of base plates for models with weighing plate sizes WxD 505x505 mm, not included. WxDxH 505x507x87 mm, KERN EOE-A02
- **Non-slip rubber mat**, WxD 945x505 mm, KERN EOE-A01
- **Sturdy transport case**, for models with weighing plate sizes ≤ 315x305x65 mm, details see page 132, KERN MPS-A07

Platform scales KERN EOB · EOS

KERN EOB

KERN EOS

The bestseller in parcel- and veterinary scales, also with XL platform, now with higher resolution

Features

- **Simple and convenient 4-key operation**
- **Wall mount** for display device, standard
- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals

- Cable length of display device approx. 1,8 m
- Optional battery operation, 6 x 1.5 V AA not included, operating time approx. 60 h
- Permissible ambient temperature 10 °C / 35 °C

Accessories

- **1 Stand** to elevate display device, height of stand approx. 950 mm, KERN MWS-A01

EOS:

- The scale can be easily transported using 2 rollers and a handle and does not require much storage space

EOB:

- Dimensions of weighing plate WxDxH
- A** 315x305x65 mm
 - B** 550x550x65 mm, see larger picture
 - C** 945x505x65 mm

EOB:

- **Non-slip rubber mat**, only for models with weighing plate sizes **C**, KERN EOE-A01
- **2 Stand** to elevate display device, height of stand approx. 450 mm, only for models with weighing plate sizes **A**, KERN EOB-A01N

Technical data

- Large LCD display, digit height 25 mm
- Dimensions of display device WxDxH 210x110x45 mm

EOS:

- Dimensions of weighing plate (stainless steel) WxDxH
- D** 900x550x60 mm

EOS:

- **Non-slip rubber mat** standard, can be reordered, KERN EOS-A01

Platform scale KERN EOS-F

No need for a cable with KERN! Wireless communication between the platform and display device for maximum flexibility

Features

- **Display device with integrated radio module** for wireless communication with the weighing platform: ideal for weighing contaminated items, weighing in loud environments or where physical separation is necessary
- **Touchless tare function:** just give it a wave. No need to operate the scale with dirty gloves any more
- **For networked operation:** 3 frequencies for parallel use of several weighing platforms with a single display device
- **High mobility** thanks to battery operation for display device and platform, operating time approx. 70 h

- **2 rollers and handle** for easy transport of the scale
- **Simple and convenient 4-key operation**
- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals
- **Wall mount** for display device standard

Technical data

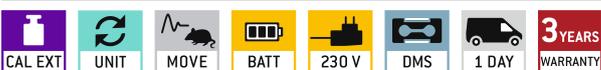

- Large LCD display, digit height 25 mm
- Dimensions of weighing plate (stainless steel) WxDxH 900x550x60 mm
- Optional battery operation, each 6 x 1.5 V AA (Display device and Platform), batteries not standard

- 2 mains adapters (external) for display device and platform included
- Net weight approx. 22 kg
- Permissible ambient temperature 10 °C / 35 °C

Accessories

- **Non-slip rubber mat** standard, can be reordered, KERN EOS-A01
- **Stand** to elevate display device, height of stand approx. 950 mm, KERN MWS-A01

Platform scale KERN DE-D

The success story with IP65 display device

Features

- **High mobility:** Battery operation/rechargeable battery pack (optional), compact, flat construction and low weight make this balance ideal for use in several locations (production, warehouse, dispatch department, ...)
- **Flexible positioning of display device:** eg. free-standing or mounted to the wall (optional)
- **Display device IP65.** Protected against dust and water splashes (only when using battery or rechargeable battery pack)
- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- With the **recipe function** you can weigh the different ingredients of a mixture. As a check, you can also recall the total weight of all the ingredients
- **Freely programmable weighing unit,** e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar

Platform scale KERN DE-D

Technical data

- Large backlit LCDdisplay, digit height 25 mm
- Dimensions of weighing plate stainless steel WxDxH
 - A** 318x308x75 mm
 - B** 318x308x85 mm
 - C** 522x406x100 mm
 - D** 522x403x90 mm, see larger picture
 - E** 650x500x105 mm
- Dimensions of display device WxDxH 225x110x45 mm
- Optional battery operation, 9 V Block, not included
- Permissible ambient temperature 5 °C / 35 °C

Accessories

- **Protective working cover** over the display device, standard, can be reordered, KERN DE-A12
- **Rechargeable battery pack internal**, operating time approx. 15 h, charging time approx. 10 h, KERN NDE-A02
- **Mount** to fasten the display device to the platform, KERN DE-A11N
- **Wall mount** for display device, KERN DE-A13
- **Stand** to elevate display device, height of stand approx. 450 mm, KERN DE-A10

- **Individual header data:** the free software KERN SHM-01 can be used to print 4 header lines on the printout for printers 911-013 and YKB-01N
- **Suitable printers** see page 130

Platform scale KERN IFS-D

Note: Special IFS models with increased counting resolution, see page 85

The industrial scale for professionals

Features

- **Industrial quality:** because of its stable construction and robust design, it is ideal for continuous use in industrial applications
- **Benchtop stand incl. wall mount** for display device as standard
- **Precise counting:** The manual optimisation of reference weight gradually improves the average value of the piece weight
- **Level indicator and foot screws** to level the balance precisely, fitted as standard, to give the most accurate weighing results
- **Totalizing** of counting operations

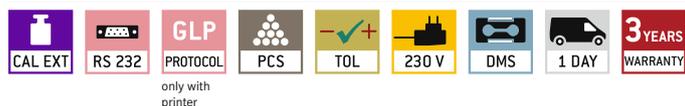

Technical data

- Backlit LCD displays, digit height 16,5 mm
- Dimensions of weighing plate (stainless steel) WxDxH
 - A 300x240x100 mm
 - B 400x300x128 mm
 - C 500x400x137 mm, see larger picture
 - D 650x500x142 mm
- Dimensions of display device WxDxH 260x150x65 mm
- Cable length of display device approx. 2,5 m
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Stand** to elevate display device, height of stand approx. 330 mm, KERN IFB-A01
height of stand approx. 600 mm, for models with weighing plate sizes **C** and **D**, KERN IFB-A02
- **Protective working cover** standard, can be reordered, KERN KFB-A02
- **Rechargeable battery pack internal**, operating time up to 40 h without backlight, charging time approx. 12 h, can be reordered, KERN KFS-A01
- **Signal lamp** for visual support of weighing with tolerance range, must be ordered at purchase, WxDxH 100x180x300 mm, KERN CFS-A03
- **Suitable printers** see page 130

Platform scales KERN ILS · ILJ

High-resolution industrial scale for the most precise results up to 50 kg, also with EC type approval [M]

Features

- **Laboratory balance with separate platform:** Ideal when working in a glove-bag or under laboratory fume hoods. Particularly practical for weighing toxic, volatile or contaminated substances
- **1** Particularly suitable for compact, very dense samples, such as for example those encountered in road construction or the construction industry
- **Robust construction of the platform** ensures stability, protects the weighing technology elements and is robust enough to cope with everyday use
- **2** only KERN ILJ: **Automatic internal adjustment** in the case of a change in temperature ≥ 3 °C or time-controlled every 3 hours

- **PRE-TARE function** for manual subtraction of a known container weight, useful for checking fill-levels
- **Weighing with tolerance range (checkweighing):** a visual signal helps with portion division, dispensing or grading
- **Totalizing** of weights (manual/automatic)
- Higher weighing speed by switching off the last digit
- **GLP/ISO record keeping of weight values** with date, time, user ID, project and serial number in combination with an appropriate KERN printer
- **Density determination** of liquids and solids. User guidance step by step on the display. The density is indicated directly on the display.
Note: Interesting facts about density determination see page 10

Technical data

- Large backlit LCDdisplay, digit height 18 mm
- Dimensions of weighing plate WxD 347x259 mm
- Dimensions of display device WxDxH 270x165x115 mm
- Cable length of display device approx. 1 m
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over the display device, standard, can be reordered, KERN ILS-A02
- **Suitable printers** see page 130

Platform scale KERN IKT

Touchscreen platform scale with enormous range of functions, now with EC type approval [M]

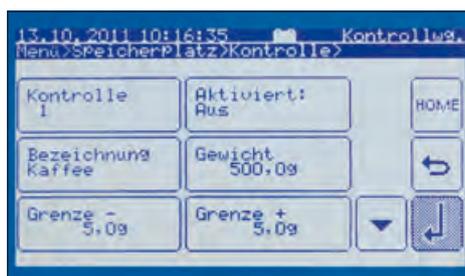

Display at full size, operating mode weighing

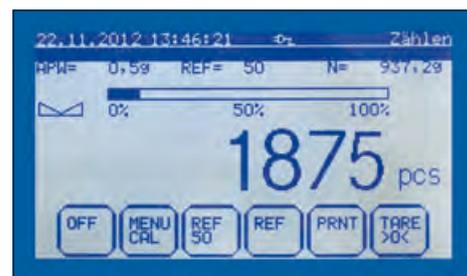

Clear menu structure with the keys labelled with plain text and touch-sensitive display
The menu and processes are self-explanatory. This reduces the training times, avoids operating errors and in this way, ensures more efficient, rapid operation

Easy input of text and values using large keypad

40 memories for each mode, for checkweighing, pre-tare, reference weight, target weight when dispensing etc.

Professional counting function
All relevant counting information at a glance, such as, for example, reference weight, reference quantity, total count, total weight, tare container weight, available weighing range and much more
Order Hotline: Go to back page of catalogue

Platform scale KERN IKT

Features

- **Innovative touchscreen:** Large touch-sensitive, backlit screen with very good contrast for easy operation and convenient reading
- **Maximum transparency:** All function keys are labelled with plain text which ensures that they are easily understood. The menu tree overlay in the info bar allows you to see at a glance which function is currently in use
- **Advantages:**
 - No more errors or lost time through keys which have several functions or unclear markings
 - Large keys, which can also be operated while wearing gloves
- **Convenient recipe weighing:** 5 recipes each with 7 components can be stored in plain text

Technical data

- Back-lit LCD graphic display with digit height 18 mm, screen diagonal 5.8" (approx. 147 mm, WxH 108x74 mm)
- Dimensions of weighing plate stainless steel WxDxH
 - A** 228x228x70 mm
 - B** 315x305x75 mm
 - C** 450x350x115 mm, see larger picture
 - D** 650x500x142 mm
- Dimensions of display device WxDxH 200x155x68 mm

- Cable length of display device for weighing plate size
 - A, C, D** approx. 0,6 m
 - B** approx. 1 m
- Permissible ambient temperature 10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, KERN IKT-A01
- **Rechargeable battery pack external,** operating time up to 10 h, charging time approx. 10 h, can be reordered, KERN KS-A01
- **Set for underfloor weighing,** consisting of platform, handle and hook, only for models with weighing plate sizes **B,** KERN DS-A01
- **Signal lamp** for visual support of weighing with tolerance range, KERN IKT-A04
- **RS-232/Ethernet adapter,** to connect balances with an RS 232 interface to a network, using Ethernet, details see page 131, KERN YKI-01
- **Stand** to elevate display device, only for models with weighing plate sizes **B, C,** KERN IKT-A06
- **Wall mount** for display device, KERN IKT-A03
- **Suitable printers** see page 130

Modes

- ① Weighing
- ② Counting
- ③ Dispensing
- ④ Recipe weighing
- ⑤ Checkweighing
- ⑥ Totalizing with daily total
- ⑦ Percentage determination
- ⑧ Animal weighing
- ⑨ Surface weight
- ⑩ Density determination, only with **B,** not for **M**
- ⑪ Rapid mode, not for **M**

Functions

- Capacity display, with ① - ②, ⑦, ⑨ - ⑩
- Dispensing assistance (subtractive, additive), with ①, ④
- Net/Gross display, permanently on, with ①-⑩
- Variable reference quantity, with ②
- Automatic reference optimisation, with ②
- Tare deduction numerical or from the memory unit, with ① - ⑩
- Input of item or batch description, operator etc., with ① - ⑩
- Freely programmable weighing unit, e.g. display directly in special units such as length of thread g/m, paper weight g/m², or similar, with ①, ⑨
- Date/time, with ① - ⑩
- Statistical function, with ①, ③, ⑤
- GLP printout, with ① - ⑩
- Individual printout configuration, with ① - ⑩

10 Floor, pallet and drive-through scales

KERN Model		Page
BOBP	Floor scale with the best price performance ratio	103
BFS	Robust floor scale with piece-counting function	104
BFB	Affordable floor scale with EC type approval [M]	105
BFN	Stainless steel floor scale in XL size with IP68 platform	106
UFA	Weighing beams can be used for large loads in many applications	107
UFB	Robust pallet scale in two versions, suitable with EC type approval [M]	108
UFN		
NFB	Robust, industrial drive-through scale with two integrated access ramps, suitable for verification [M]	109

Robust assistant when weighing large loads

KERN offers a carefully coordinated range of affordable entry level models, through to practical built-in solutions up to the top level verified models made of stainless steel. The common factor is the long-lasting industrial quality as well as the high level of protection against dust and water splashes.

The setup, startup, and possible calibration of floor, pallet, and drive-through scales require specialized knowledge, which is the basis for a successful sale. Please ask for our „Floor scale info sheet“.

High-capacity balances – ideal for piece counting with large numbers of items

The weighing ranges of bench counting scales are often not sufficient to count large quantities, units, items on pallets, etc. This is where high-performance counting systems come into their own, as these combine a high-precision reference balance with a high-capacity bulk scale, such as for example floor scales, pallet scales or drive-through scales. Your personal KERN customer adviser will be happy to help you put together the right high-capacity counting system for you.

Floor scale KERN BOBP

1 Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs

Floor scale with the best price performance ratio

Features

- **Simple and convenient 4-key operation**
- **Weighing bridge with non-slip steel chequer plate, lacquered.** Overall height of weighing bridge 90 mm, height-adjustable screw feet to level the platform
- **Wall mount** for display device standard
- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals

Technical data

- Large LCD display, digit height 25 mm
- Dimensions of weighing plate WxDxH 1006x996x90 mm
- Dimensions of display device WxDxH 210x110x45 mm
- Cable length of display device approx. 6 m
- Optional battery operation, 6 x 1.5 V AA not included. AUTO-OFF function to preserve the batteries. Operating time approx. 60 h
- Net weight approx. 50,5 kg
- Permissible ambient temperature 10 °C / 35 °C

Accessories

- **1 Stand** to elevate display device, height of stand approx. 950 mm, KERN MWS-A01
- **Ascending ramp** including fixing board between weighing bridge and ascending ramp, WxDxH 996x507x87 mm, see larger picture, not included, KERN BOBP-A01

Floor scale KERN BFS

Floor scale with piece-counting function

Features

- **Weighing bridge with non-slip steel chequer plate, lacquered**, overall height 80 mm
- **Easy access to the junction box** from the top
- **Comfortable adjustment of the weighing bridge** from above
- **Display device KERN KFS-T**, details see page 112
- **Benchtop stand incl. wall mount** for display device as standard
- **Precise counting**: The manual optimisation of reference weight gradually improves the average value of the piece weight, see page 79
- **Totalizing** of counting operations
- **Weighing with tolerance range (checkweighing)**: Input of an upper/lower limit value. A visual and audible signal assists with portion division, dispensing or grading

Technical data

- Large backlit LCD display, digit height 16,5 mm
- Dimensions of weighing plate WxDxH
 - A** 1000x1000x80 mm
 - B** 1500x1250x80 mm
- Dimensions of display device WxDxH 260x150x65 mm
- Permissible ambient temperature 0 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be reordered, KERN KFB-A02
- **Stand** to elevate display device, height of stand approx. 750 mm, similar to illustration, KERN BFS-A07

1 Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs

- **Ascending ramp**, not included, or models with weighing plate sizes
 - A** WxD 1000x840 mm, KERN BFS-A01
 - B** WxD 1250x840 mm, KERN BFS-A02
- **Pair of base plates** to fix the weighing bridge to the floor, KERN BFS-A06
- **Stable pit frame** to install the weighing bridge so you can drive straight on, for models with weighing plate sizes
 - A** WxDxH 1090x1090x86 mm, KERN BFS-A03
 - B** WxDxH 1590x1340x86 mm, KERN BFS-A04
- **Rechargeable battery pack internal**, operating time up to 40 h without backlight, charging time approx. 12 h, must be ordered at purchase, KERN KFS-A01
- **Suitable printers** see page 130

Floor scale KERN BFN

Stainless steel floor scale in XL size with IP68 platform

Features

- **Weighing bridge entirely out of stainless steel**, extremely resistant to bending because of its high material thickness. Weighing plate fixed with stainless steel screws. Weighing bridge can also be delivered as components without the display device, KERN KFP-V40, details see page 114
- **Easy access to the junction box** from the top
- **Load cell stainless steel**, welded, IP68
- **Display device KERN KFN-TM**, stainless steel, IP67, details see page 113
- **Benchtop stand incl. wall mount** for display device as standard
- **Weighing with tolerance range (checkweighing)**: Input of an upper/lower limit value. A visual and audible signal assists with portion division, dispensing or grading
- **Totalizing** of weights and counting operations

Technical data

- Large backlit LCDdisplay, digit height 52 mm
- Dimensions of weighing plate WxDxH 1500x1250x80 mm
- Dimensions of display device WxDxH 266x165x96 mm
- Rechargeable battery pack internal, standard, operating time approx. 35 h without backlight, charging time approx. 12 h
- Cable length of display device approx. 5 m
- Net weight approx. 135 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Stand** to elevate display device, height of stand approx. 750 mm, KERN BFS-A07

Note: For verified scales the weighing bridge must be fixed to the floor. Optionally, with a access ramp or a footplate pair or a pit frame.

1 Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs.

- **2 Ascending ramp**, stainless steel, incl. attachment plate to fix it to the weighing bridge, dimensions WxDxH 1250x750x85 mm, KERN BFN-A01
- **Pair of base plates** to fix the weighing bridge to the floor, KERN BFN-A03, on request
- **3 Stable pit frame** to install the weighing bridge so you can drive straight on, stainless steel, dimensions WxDxH 1250x1500x86 mm, KERN BFN-A02
- **Data interface RS-232**, interface cable included, must be ordered at purchase, KERN KFN-A01

Weighing beams KERN UFA

Weighing beams can be used for large loads in many applications

Features

- Ideal for weighing large, bulky or long items
- **High mobility:** thanks to battery operation (optional) and compact, flat construction, it is suitable for use in several locations (production, warehouse, dispatch department, ...)
- **Sturdy handles** to transport the weighing beams
- **Weighing beams steel**, lacquered, solid steel construction, extremely resistant to bending
- **Load cells steel, silicone-coated**
- **Display device KERN KFB-TM**, details see page 113
- **Weighing with tolerance range (checkweighing):** Input of an upper/lower limit value. A visual and audible signal assists with portion division, dispensing or grading
- **Vibration-free weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals

- **Totalizing** of weights and counting operations
- **Benchtop stand incl. wall mount** for display device as standard
- Weighing beams can also be delivered as components without the display device, For additional information see page 115

Technical data

- Large backlit LCDdisplay, digit height 52 mm
- Dimensions weighing beams WxDxH 1200x120x100 mm
- Dimensions of display device WxDxH 250x160x58 mm
- Cable length of display device approx. 5 m
- Cable length weighing beams approx. 2,5 m
- Net weight approx. 35 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be reordered, KERN KFB-A02
- **Stand** to elevate display device, height of stand approx. 750 mm, KERN BFS-A07
- **Rechargeable battery pack internal**, operating time approx. 35 h, charging time approx. 10 h, KERN KFB-A01
- **Signal lamp** for visual support of weighing with tolerance range, KERN CFS-A03
- **2nd data interface**, Y cable for parallel connection of two terminal devices to the RS 232 interface of the balance, e.g. of a printer, signal lamp etc. KERN CFS-A04
- **Suitable printers** see page 130

Pallet scales KERN UFB · UFN

KERN UFB

KERN UFN

Pallet scale made from painted steel or stainless steel, suitable with EC type approval [M]

Features

- **High mobility:** thanks to battery operation and compact, flat construction, it is suitable for use in several locations (production, warehouse, dispatch department,...)
- **2 rollers and handle** for easy transport of the scale
- **Dynamic weighing:** at the push of a button, a stable average weight is given when the environmental conditions are unstable or when weighing animals
- **Totalizing** of weights and counting operations
- **1 Load cell steel, silicone-coated, IP67**
- **Load support solid steel construction**, extremely resistant to bending

UFB:

- **Display device KERN KFB-TM**, details see page 113
- **Load support, steel lacquered, IP67**

UFN:

- **Display device KERN KFN-TM, stainless steel, IP67**, details see page 113
- **2 Load support, stainless steel, IP67**

Technical data

- Large backlit LCDdisplay, digit height 52 mm
- Cable length of display device approx. 5 m
- Permissible ambient temperature -10 °C / 40 °C
- Dimensions of display device WxDxH
UFB: 250x160x58 mm
UFN: 266x165x96 mm

UFN:

- **3 Rechargeable battery pack** internal standard, operating time approx. 80 h, charging time approx. 10 h

Accessories

- **3 Stand** to elevate display device, height of stand approx. 750 mm, similar to illustration, KERN BFS-A07

- **Suitable printers** see page 130

UFB:

- **Protective working cover** over the display device standard, can be reordered, KERN KFB-A02
- **5 Rechargeable battery pack internal**, operating time approx. 35 h, charging time approx. 12 h, must be ordered at purchase, KERN KFB-A01
- **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, see page 131, KERN CFS-A03

Drive-through scale KERN NFB

Industrial drive-through scale with two integrated access ramps, with EC type approval [M]

Features

- Robust drive-through scales for rapid weighing of e.g. wire cage trolleys, shelf trolleys, container trolleys, storage trolleys, sack trucks, truck scales, mobile cages, refuse bins etc.
- **Weighing bridge with non-slip steel chequer plate, lacquered**, extremely resistant to bending
- **4 Load cells steel, silicone-coated.**
IP67 protection: Protection against dust and water, temporary use in wet areas is possible
- **Display device KERN KFB-TM**, details see page 113
- Limited range of tare with verifiable models (1/6 from [Max])

Technical data

- Large backlit LCDdisplay, digit height 52 mm
- Overall dimensions WxDxH
 - A** 1600x1200x78 mm
 - B** 1800x1400x78 mm
- Drive-through width and depth WxD
 - A** 1000x1000 mm
 - B** 1200x1200 mm
- Dimensions of display device WxDxH 250x160x58 mm
- Cable length of display device approx. 5 m
- Net weight approx. 131 kg
- Permissible ambient temperature -10 °C / 40 °C

Accessories

- **Protective working cover** over the display device standard, can be reordered, KERN KFB-A02
- **Stand** to elevate display device, height of stand approx. 750 mm, KERN BFS-A07
- **Signal lamp** for visual support of weighing with tolerance range, WxDxH 100x180x300 mm, see page 131, KERN CFS-A03
- **Suitable printers** see page 130

1 For verified scales the weighing bridge must be fixed to the floor. Optionally, with a access ramp or a footplate pair

1 Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs

11 Display devices / Weighing bridges

Individuality is the trump card

Do you have any special requests, which are not covered by our extensive balance range? Then why not configure your ideal model yourself, it's quick, individual and affordable.

It's your choice:

- Choose one of the many KERN weighing bridges, pallet scales or drive-through scales and combine these with one of the many KERN display devices
- Combine **your** weighing bridge with a KERN display device
- Combine **your** display device with a KERN weighing bridge

With KERN get your ideal balance verified too

To help you achieve a verified individual scale combination KERN offers you full support, such as for example

- Production of proof of compatibility, see page 111
- Support in preparing for verification, EC type approval, setup conditions
- Issue of declaration of conformity upon conformity evaluation (manufacturer's initial verification)

Of course we can also offer you the complete service and put the required scale combination together for you, including verification. All further details can be found on the following pages or ask your personal customer service agent, he will be pleased to advise you.

KERN Components

You select the KERN-components, KERN will look after the rest:

- 1 Platforms KERN KFP etc. (see page 114/115)
- 2 Display devices KFB-TM etc. (see page 112/113)
- 3 Assembly of a complete scale
- 4 Proof of compatibility for on-site verification
- 5 Verification at the factory KERN

Components for individual scale combinations

Verification consultation service for individual scale combinations

Information for specialist balance companies:

If display devices (terminals) with EC-Type approval and weighing bridges (e.g. pallet scales, floor scales or drive-through scales) with EC-Type approval are combined as a complete unit, then this weighing system can be verified as a class III commercial scale.

For this procedure KERN offers the following support:

- 4 Proof of compatibility: We will confirm whether combinations of weighing modules such as display devices, load cells and connecting elements are appropriate for verification. We would be pleased to carry this out for you.
- Authorisation for initial verification by the manufacturer: We will support you in your preparations for verification, issuing the declaration of conformity and be involved with the manufacturer's initial verification.

VHM	Professional pallet truck scale with removable battery pack and EC type approval [M]	121

Weighing and transportation in one operation

Speed up your warehouse and dispatch processes with the KERN pallet truck scales.

Get the exact weight of a load and at the same time, transport it to a specific location, all in one operation. This shortens commissioning times and also avoids the queues, which can occur when you use fixed floor scales.

These mobile weighing solutions are space-saving and deliver reliable weighing results in any location. So, for example in Goods Inwards and Outwards, you can quickly identify differences between given and actual weights. This uncovers any errors in quantities, saves you time and money and thus ensures a very short amortisation period for the original cost of the scale.

KERN offers a carefully coordinated range from affordable entry level models, via the easy-to-use model with counting function, printer or removable battery pack for uninterrupted functionality, right through to the top level model in verified version.

KERN pallet truck scales are made in robust industrial quality, with high level of protection against dust and water splashes, with high-contrast, easy-to-read displays as well as solid wheels and load rollers with foot brakes - all this helps to give you practical support in your work - day after day.

The KERN three-range pallet truck scale is particularly suitable for a wide range of applications, as it has three levels of accuracy. As the loading increases the scale automatically switches to the next largest range, in terms of both weighing range [Max] as well as readout [d]. In this way, you have a clever combination of a high level of accuracy and the ability to handle heavy loads.

KERN pallet truck scales in robust industrial quality, high level of protection against dust and water splashes, with high-contrast, easy-to-read displays as well as solid wheels and load rollers with foot brakes - all this helps to give you practical support in your work - day after day.

Of course, all KERN pallet truck scales can also be calibrated and delivered with a DKD calibration certificate (optional). This ensures the high level of accuracy of your pallet truck scale.

Pallet truck scale KERN VHE-N

This model is the ideal entry into the world of mobile weighing

Features

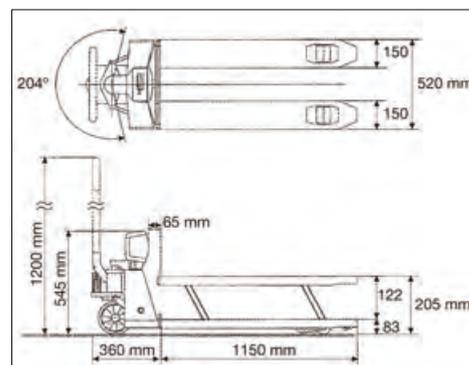

- **Very manoeuvrable** thanks to its compact construction and low weight
- **Particularly robust** because the sensitive components have been relocated from the load fork into the protected housing area. It is therefore also ideal for heavy applications in the production area and on board lorries
- **A Display device IP65.** Protected against dust and water splashes
- **B Load fork IP67.** Load cells are protected against dust and water, temporary use in wet areas is possible
- **Low height of the loading forks** making it easy to work with low pallets
- **Pivot range 204°**
- **Castors:** Solid rubber on aluminium rims
- **Load rollers:** Polyurethane
- **Specially constructed for general checkweighing**, e.g.: plausibility check at goods receiving, establishing shipping weights, avoiding overloads, safety checks

Operation:

- 1 Switch on and then pump up the load fork to the reference height
 - 2 Tare off
 - 3 Release the load fork and position the goods to be weighed on it
 - 4 Weighing: Pump the load fork up to the reference height
- **Ready for use:** Batteries included (2 x 1.5 V AA). AUTO-OFF function to preserve the batteries. Operating time approx. 1 year / approx. 3000 weighings. Charge condition indicator on display

Technical data

- Large LCD display, digit height 18 mm

Note: Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs

Pallet truck scale KERN VHB

Transportation and weighing, with a memory for a container weight

Features

- **PRE-TARE function** for manual subtraction of a known container weight, e. g. pallet cages, pallets etc., which can be saved
- **1 Display device IP65.** Protected against dust and water splashes
- **2 Load fork IP67.** Load cells are protected against dust and water, temporary use in wet areas is possible
- **Pivot range 206°**
- **Castors:** Solid rubber on aluminium rims
- **3 Load rollers:** Tandem tyres so that you can get over thresholds and obstacles more easily. Material: Polyurethane
- **Ready for use:** Batteries included (4 x 1.5 V AA). AUTO-OFF function to preserve the batteries. Operating time approx. 80 h / 1700 weighings. Charge condition indicator on display

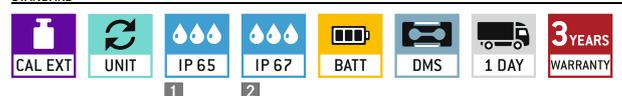

Technical data

- Large LCD display, digit height 28 mm

Note: Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs

Pallet truck scales KERN VHT · VHM

Illustration: KERN VHM

Pallet truck scale with removable battery, alternatively with piece-counting function (VHT) or EC type approval (VHM)

Features

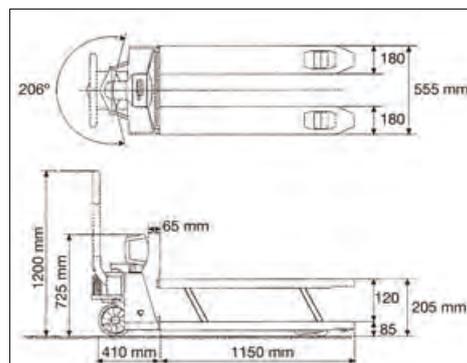

- **PRE-TARE function** for manual subtraction of a known container weight
- **1 Display device IP65.** Protected against dust and water splashes
- **2 Load fork IP67.** Load cells are protected against dust and water, temporary use in wet areas is possible
- **Pivot range 206°**
- **Castors:** Solid rubber on aluminium rims
- **3 Load rollers:** Tandem tyres so that you can get over thresholds and obstacles more easily. Material: Polyurethane
- **4 Rechargeable battery pack internal,** standard, with practical handle for quick replacement, operating time up to 35 h, charging time approx. 6 h, can be reordered, KERN VHT-A01

KERN VHT

- **Piece-counting function:** Particularly practical, when large quantities of a weighed item must be quickly counted into and out of a container, see page 79
 - **Integrated thermal printer,** standard. Printed with date and time. Width of paper 58 mm, 20 characters/line, print-out speed up to 45 mm/sec, temperature range 0 °C / +40 °C
- Accessories: **Thermal receipt rolls** (10 pieces), KERN VHS-A10

KERN VHM, see larger picture

- **Verified pallet truck scale,** so can be used in commercial trade situations. Please observe legal conditions and relevant recommendations for use

Technical data

- Large LCD display, digit height 18 mm
- Net weight approx. 125 kg
- Permissible ambient temperature -10 °C / 40 °C

Hanging scales KERN HDB-N · CH

KERN HDB-N

KERN CH

Convenient, economical and always handy

Features

- Ideal for rapid checking in goods receiving and shipping
- Also essential in the private sector for determining the weight of fish, game, fruits, bicycle parts, cases etc.
- **Data hold function:** For easy reading of the weight, the display can be „frozen“ in different ways. Either automatically when the weighing value remains unchanged or manually by pressing the Hold key

Technical data

HDB-N:

- **Hook (stainless steel)**, can be hinged
- **Ready for use:** Batteries included, 2 x 1.5 V AAA, operating time approx. 180 h, AUTO-OFF function to preserve the battery, Pallet truck scale with removable battery, alternatively with piece-counting function (VHT) or EC type approval (VHM) can be switched off
- Further weighing units: kg, lb, N
- Permissible ambient temperature 5 °C / 35 °C

CH:

- **Hook (stainless steel)**
- **Tape measure**, extractable, length approx. 100 cm
- **Peak load display** (peak hold), measuring frequency 5 Hz
- **Ready for use:** 9 V Block included, operating time approx. 20 h. AUTO-OFF function to preserve the batteries, can be switched off
- Further weighing units: kg, lb, N
- Permissible ambient temperature 5 °C / 35 °C

Hanging scales KERN HCB · HCN

KERN HCB

KERN HCN

The handy scales for higher loads, also with IP65

Features

- Ideal for rapid checking in goods receiving and shipping
- Also essential in the private sector for determining the weight of fish, game, fruits, bicycle parts, cases etc.
- **Data hold function:** For easy reading of the weight, the display can be „frozen“ in different ways. Either automatically when the weighing value remains unchanged or manually by pressing the Hold key
- **Peak load display** (peak hold), measuring frequency 5 Hz

Technical data

- LCD display, digit height 12 mm
- HCB:**
- **Ready for use:** 3 x 1.5 V AA standard, operating time approx. 300 h
- HCN:**
- Housing stainless steel, IP65 protection
 - **Second display** on the rear of the balance
 - **Ready for use:** batteries (2 x 1.5 V AA) standard, operating time approx. 200 h

Accessories

- **Hook (stainless steel)** standard, aperture approx. 25 mm, can be reordered, KERN HCB-A02
- **Snap link (stainless steel) with safety catch** standard, aperture approx. 15 mm, can be reordered, KERN HCB-A01

Crane scale KERN HFB

The professional alternative up to 600 kg with rear-facing second display

Features

- **1** With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- **3** **Radio remote control** standard. Range approx. 20 m. All functions can be selected (excl. ON/OFF). WxDxH 48x10x95 mm. Batteries included (2 x 1,5 V AAA)
- **High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department, ...)
- **2** **Second display** on the rear of the balance
- **Hook with safety catch**, revolving
- Shackle and hook connection made of nickel-plated steel
- **Adjusting program CAL**, external test weights at an additional price, see page 133
- **Rechargeable battery pack internal**, standard, operating time approx. 40 h, charging time approx. 14 h with mains adapter, charge indicator visual using LED
- **Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically „frozen“ until the HOLD key is pressed
- **Tare:** Resets the display to „0“ when there is a load on the scale. Now removed or added loads are directly displayed

Technical data

- Superior display size: digit height 25 mm. Bright backlight for easy reading of weight, even from a distance
- Dimensions housing WxDxH 163x126x158.5 mm
- Precision: 0.2 % from [Max]
- Permissible ambient temperature 0 °C / 40 °C

Crane scale KERN HUS

Compact up to 600 kg

Features

- **1** With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- **Hook with safety catch**, forged steel, nickel-plated, revolving
- **Loop forged steel**, nickel-plated
- **Adjusting program CAL**, external test weights at an additional price, see page 133
- **Rechargeable battery pack internal**, standard, operating time approx. 120 h, charging time approx. 8 h (internal charging with mains adapter). Selectable: AUTO-OFF function or permanent operation. Charge condition indicator using three-colour LED

- **2 Infrared remote control** standard. Range approx. 2,5 m. All functions can be selected. WxDxH 120x60x15 mm. Batteries included, 2 x 1,5 V AAA
- **Data hold function**: When the weighing value remains unchanged the weight indicated on the display is automatically „frozen“ until the HOLD key is pressed
- **Tare**: Resets the display to „0“ when there is a load on the scale. Now removed or added loads are directly displayed

Technical data

- Backlit LCDdisplay, digit height 23 mm
- Dimensions housing WxDxH mm
- Total height from loop to hook 380 mm (KERN HUS 600K200: 400 mm)
- Precision: 0.2 % from [Max]
- Net weight approx. 4 kg
- Permissible ambient temperature 0 °C / 40 °C

Hanging scales / crane scales

Crane scale KERN HFM

High resolution industrial crane scale up to 10 t

Features

- **1** With the TÜV certification mark, the scale meets the requirements of the standard EN 13155 (Non-fixed load lifting attachments) and EN 61010-1 (Electrical safety)
- **Professional device for robust applications** in production, quality control, logistics etc. Because of its stable construction and robust design, it is ideal for continuous use in industrial applications
- **High mobility:** thanks to battery operation, compact construction and low weight, it is suitable for use in several locations (production, warehouse, dispatch department, ...)
- **Adaptation to unstable environmental conditions** by changing the readout
- **Hook with safety catch**, revolving

- **Rechargeable battery pack internal**, standard, operating time approx. 50 h, charging time approx. 14 h with mains adapter, charge indicator visual using LED
- **Adjusting program CAL**, external test weights at an additional price, see page 133 ff.
- **Data hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically „frozen“ until the HOLD key is pressed
- **Tare:** Resets the display to „0“ when there is a load on the scale. Now removed or added loads are directly displayed
- **2 Radio remote control** standard. Range up to 20 m. All functions can be selected (excl. ON/OFF). WxDxH 48x10x95 mm. Batteries included, 2 x 1,5 V AAA

Technical data

- Superior display size: digit height 30 mm. Luminescent LED display for easy reading of the weight, even from a distance or in poor lighting conditions
- Precision: 0.2 % from [Max]
- Permissible ambient temperature 0 °C / 40 °C

Printer

KERN 911-013

STANDARD

Matrix needle printer

To print the weights on normal paper, which is ideal for long-term archiving.

Technical data:

- Needle print
- Speed: 0,75 lines/sec
- max. 40 characters per line
- Paper stripes: 57 mm wide
- Operation via mains adapter 230V/50Hz (standard)
- Dimensions:
WxDxH 105x180x90 mm

- Interface cable not included with delivery
- Please state your balance model when ordering, so that the printer can be preconfigured in the factory to suit your balance.

Price printer without interface cable, KERN 911-013

Accessories:

Paper rolls (10 pieces), KERN 911-013-010

KERN YKB-01N

STANDARD

Thermal printer

For printing results, recipes, quantities etc. or for GLP record keeping of balance adjustment with date and time print. Language versions: D, GB, F.

Technical data:

- Thermal print
- Speed: 0,75 lines/sec
- max. 40 characters per line
- Paper stripes: 112 mm wide
- Operation via mains adapter: 230 V/50 Hz (standard)

- Dimensions:
WxDxH 165x140x50 mm

- Interface cable not included with delivery
- Please state your balance model when ordering, so that the printer can be preconfigured in the factory to suit your balance.

Price printer without interface cable, KERN YKB-01N

Accessories:

Paper rolls (10 pieces), YKB-A10

KERN YKS-01

STANDARD

Statistics thermal printer

For printing results, recipes, etc. or for GLP record keeping of balance adjustment with date and time print. Numerator; with statistical functions such as count and total of all measurements, minimum and maximum values of the main unit, range (Max-Min). Average value, standard deviation, available units: mg, g, kg, pcs. Language versions: D, GB, F.

Technical data:

- Thermal print
- Speed: 0,75 lines/sec
- max. 40 characters per line
- Paper strip: 112 mm wide

- Operation via mains adapter: 230 V/50 Hz (standard)

- Dimensions:
WxDxH 165x140x50 mm

- Interface cable not included with delivery
- Please state your balance model when ordering, so that the printer can be preconfigured in the factory to suit your balance.

Note:
The interface cable is **free of charge** if you purchase the balance and printer together.

Ethernet adapter KERN YKI-01

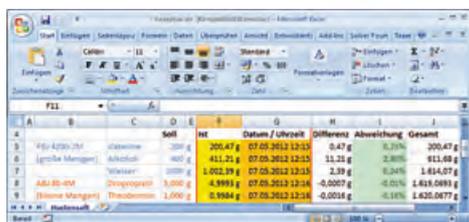

Adapter to connect balances, force measuring devices etc. with an RS 232 interface ² to an IP-based Ethernet network ¹. The adapter allows direct integration of measuring devices into most company networks, with automatic configuration using DHCP or statistical IP allocation. You can access the current measuring data at any time over the whole network, without having to use additional cables. The adapter supports a wide range of configuration options using the enclosed administration software or through the web interface. The driver delivered with the goods allows you to access the measuring device with existing, non-network-compatible applications using a virtual COM port.

Compatible with **KERN BalanceConnection software**. Suitable for wall mounting ³, DIN track mount ³ or free-standing. Scope of supplies: RS 232 Ethernet adapter with 1x Port RS 232 ¹, mains adapter ⁴, CD (driver, software, operating instructions), adhesive feet.

Note: To connect to your network, you will need information from your network administrator. You should discuss connecting your device into your network with the administrator before you place your order.

KERN YKI-01

Software Balance Connection

- Interface cable included. Please specify balance model when ordering (see interface cable table)

Benefits:

- Typing errors during manual transfer, for example, are avoided
- GLP-compliant lab software

KERN SCE-4.0

2nd RS-232 data interface,

separate Y cable, e.g. for simultaneous connection of a printer, signal lamp etc. Suitable for BFB, CPB-N, CFS, GAB-N, IFB, KFB-TM, NFB, UFA, UFB

KERN CFS-A04

KERN CFS-A03

Signal lamp

for visual support of weighing with tolerance range. Three-colour LED, red, green, yellow. Suitable for series GAB-N, CPB-N, IFB, NFB, KFB-TM (on request: BFB, UFB). Total dimensions WxDxH 100x180x300 mm,

KERN CFS-A03

For the direct transmission of balance data to Windows applications (operating systems XP, Vista, Windows 7)

- Transfer via RS-232 to the PC, e.g. to MS Excel
- Transfer at the touch of a key or on a time-controlled basis
- Date and time can be given at any time
- The interface protocols for KERN balances are already predefined

Accessories

KERN YBI-01

Ioniser to neutralise electrostatic charge

Features:

Goods to be weighed which are non-conductive, such as plastic, china, glass, etc often carry electrostatic charge. The electromagnetic field which then occurs between the goods to be weighed and the balance can cause the weighing result to be distorted by up to a gramme.

Therefore, when weighing in milligrammes or even smaller increments, we recommend neutralising the electrostatic charge with the KERN AC-Korona discharge ioniser.

With the mount **1** supplied with the ioniser, it can be positioned conveniently next to the balance or you can manually direct it from all sides onto a particular item to be weighed **2**.

Technical data:

- **Neutralisation:** $\pm 20V$
- **Discharge of ozone:** 0,04 ppm/h
- **Dimensions:** WxDxH 97x53x31 mm, WxDxH 150x150x90mm incl. mount
- **Net weight:** ca. 0,11 kg
ca. 0,55 kg incl. mount
- **Mains connection:** 110-230V/50Hz, AC power supply, 12V DC output

KERN YBI-01

Weighing table

Features:

Accurate measuring results require stable working conditions! The KERN YPS-01 weighing table has been constructed to absorb vibrations and oscillations, which would otherwise distort the weighing result.

The YPS-01 weighing table consists of:

- **1** Polished marble plate (36 kg) as integrated working surface, positioned on absorbing rubber components
- Work table with aluminium profile frame and height-adjustable feet

Technical data:

- **Dimensions:** WxDxH 800x600x782 mm
- **Dimensions marble plate:** WxD 400x450 mm
- **Net weight:** ca. 54 kg

1 Dispatch complete on pallet. Please ask for dimensions, gross weight, shipping costs.

KERN YPS-01

Sturdy transport case

for the safe transport and storage of series EOE, EOB scales with weighing plate size $\leq 315 \times 305$ mm without stand; inner dimensions WxDxH 425x315x65 mm,

KERN MPS-A07

KERN MPS-A07

KERN YPS-01

15 Test weights

Weights yesterday and today

Weights have always been used to carry out weighing procedures. This original purpose has almost disappeared. Today, weights are used almost exclusively for adjusting and testing = calibration of electronic balances. We therefore call them „Test weights“ as this is their purpose of use.

Adjustment or calibration?

→ **Adjusting** a balance means that you are intervening in the weighing system, to make sure that the display is set to show the correct nominal value. With → **calibration**, on the other hand, there is no intervention, you are testing whether the display is correct and documenting any deviation.

Testing, doing it right!

The internationally valid OIML Directive R111-2004 classifies test weights hierarchically into accuracy classes, where E1 is the most accurate and M3 is the least accurate weight class. With KERN you get the whole test weight range in all OIML accuracy classes E1, E2, F1, F2, M1, M2, M3.

As the appropriate test weight is only classed as checking equipment to ISO 9000ff if it has the relevant proof of accuracy, all KERN test weights come with an appropriate DKD calibration certificate (optional). For further details, see the DKD calibration service section on page 153.

KERN offers you the appropriate test weight package for your balance, consisting of the test weight, box and → **DKD calibration** certificate, as proof of its accuracy ... the best pre-requisite for proper balance calibration.

Test weights: classes of accuracy E, F, M and their general relation to the types of balances:

- E2** the most accurate test weights for high resolution analytical balances of verification class I $\geq 100.000 e$
- F1** Test weights for analytical balances/ precision balances for verification class I/ II, $\leq 100,000 e$
- F2** Test weights for precision balances of verification class II, $\leq 30,000 e$
- M1** Test weights for industrial and commercial balances of verification class III, $\leq 10,000 e$

Your KERN product specialist will be happy to help:

Information about your KERN test weight

Selection of the appropriate test weight for your balance:

Correctly selected test weights with DKD calibration certificate are the pre-requisite for ensuring that your balances are not only correctly adjusted, but also correctly calibrated. Scheduled testing of your balances with such test weights helps to guarantee your quality requirements and to maintain your quality targets.

Here's how you find the right test weight for your balance:

A balance can never be more accurate than the test weight used to adjust it, it depends on its tolerance.

Accuracy of the test weight: Should correspond to the readout d of the balance, rather than something better.

Nominal weight value: This is shown in adjust mode „CAL“ in the balance display. Given the choice, the heaviest weight is the most suitable for accurate measurement.

Once accuracy and nominal weight value are specified, the suitable test weight is selected according to the tolerances „Tol“ of the individual accuracy classes E2-M3, see column „Tol \pm mg“ at the respective weight and table at page 135.

Example:

Balance with weighing range **Max** 2000 g = 2 kg and readout $d = 0,01$ g = 10 mg

- The accuracy of the required test weight is determined by readout d with approx. ± 10 mg.
- displayed weight size on „CAL“ mode: 1000 g or 2000 g. The required test weight has a 2 kg weight size.
- suitable test weights with ± 10 mg tolerance and 2 kg weight size, stand in accuracy class F1. KERN-No 327-72, see page 140.

Exception, analytical balances (readout $d \leq 0,1$ mg):

E1 test weights are recommended. Depending on the safety requirements, E2 test weights with a DKD calibration certificate will also be sufficient.

**You can make up your own individual weight set yourself:**

It contains only the weights which you need for testing purposes. KERN will make your own personal box out of plastic, wood or aluminium. For more details on this, please see page 152.

Test weights

CLASS M1

Milligram weights, flat polygonal sheet, aluminium/German silver

- Test weight material: Aluminium 1 mg – 5 mg/German silver 10 mg – 500 mg
- Container material: Lined plastic

**You can make up your own individual weight set yourself:**

It contains only the weights which you need for testing purposes.

KERN will make your own personal box out of plastic, wood or aluminium For more details on this, please see page 152.

Newton weights (N)

All hook and slotted weights as well as beam bars are available with N adjustment according to M1 tolerances.

We need to know the location of use and post code.

DKD-calibration certificate for N weights: identical to DKD prices for individual weights M1

Made specially for you

Cases/boxes for individual weight sets

Individual weight sets:

You can make up your own „tailor-made“ individual weight sets yourself.

KERN will make your own personal wooden box / plastic carrying case. The largest individual weight which will fit is given in the table.

Sample order:

Your individual weight set:

1 x 50 g, 2 x 100 g, 1 x 500 g, 2 x 1 kg, 1 x 2 kg.

The correct individual box is

KERN No. 313-080-400 (plastic) or

KERN No. 315-070-100 (wood).

Plastic case

for weight classes **E1, E2, F, M**,
not appropriate for cast iron weights

KERN	For weights
313-050-400	≤ 500 g
313-080-400	≤ 5 kg

Wooden box

for weight classes **E1, E2 and F1**

KERN	For weights
315-040-100	≤ 200 g
315-060-100	≤ 1 kg
315-070-100	≤ 2 kg
315-080-100	≤ 5 kg
315-090-100	≤ 10 kg

Wooden box

for weight classes **F2, M1, M2 and M3**

KERN	For weights
335-040-200	≤ 200 g
335-050-200	≤ 500 g
335-060-200	≤ 1 kg
335-070-200	≤ 2 kg
335-080-200	≤ 5 kg
335-090-200	≤ 10 kg

Aluminium case

for safe storage and transportation under harsh industrial conditions.
Ideal for test weights of accuracy classes E2–M3. Please ask for details.

Weight carriers for rectangular weights or other test weights

NEW

Individual weight carriers for testing high capacity floor scales, pallet scales, pallet truck scales, crane scales, etc. This can also be used for storing the weights. This means the weight container and the weights can be placed on the balance in one go, saving you time and money.

The weight container can be calibrated to OIML accuracy classes M1–M3.

On request, KERN will make you a „tailor-made“ weight carrier to your specifications.

Verification prices for test weights	157

The DKD = **Deutscher Kalibrierdienst** (German Calibration Service) is responsible for measuring „correctly“ in accordance with legally binding international standards. It is part of DAkkS = Deutsche Akkreditierungsstelle (German accreditation organisation) which was founded in Germany. The basis is the European range of standards DIN EN ISO/IEC 17 000 for conformity assessment, in particular the accreditation standard 17 025, which governs the organisation of a calibration laboratory, as well as basic metrological technical requirements.

Only an accredited calibration laboratory can issue DKD calibration certificates. This defines not only the measuring method, but also gives information on tracing the test means to a national standard and the relevant measuring uncertainty is given.

You are certified to ...

ISO 9001, QS 9000, GLP, GMP, TS16949

You need ...

to control your measuring equipment

Our solution ...

DKD calibration certificate (Traceability, Measuring uncertainty, Internationally recognised)

KERN – Precision is our business

The KERN DKD calibration laboratory for electronic balances and weights has been accredited by DKD since 1994 and today is one of the most modern and best-equipped DKD calibration laboratories for balances, test weights and force-measurement in Europe.

Thanks to the high level of automation, we can carry out DKD calibration of balances, test weights and force-measuring devices 24 hours a day, 7 days a week.

Do you have any further requests or questions on this matter? We would be pleased to help you further, or why not visit us on the web.

Range of services:

- DKD calibration of balances with a maximum load of up to 6000 kg
- DKD calibration of weights in the range of 1 mg – 6000 kg

F2, M1, M2 and M3.

DKD calibration

Why? DKD calibration is always necessary when checking equipment (balance or test weight) is to be used in a QM process (e.g. to ISO 9000ff, GS 9000, TS 16949, VDA 6.1, FDA, GLP, GMP, ...)

What? Any checking equipment in proper condition can be DKD calibrated.

How? Determination of accuracy throughout the world by a laboratory which is accredited to DIN EN ISO 17025. Traceability to internationally recognised standards.

- Database supported management of checking equipment and reminder
- In combination with periodic recalibration we can offer you a wide range of further services:
 - Reconditioning of weights, e.g. cast weights (sand blasting, painting, adjustment,..)
 - Collection service with special transport packaging, even for heavy weights
 - Volume determination for weights of accuracy class E1
 - Measuring of sensitivity (magnetic characteristics)
- Calibration of force-measuring devices
- DKD calibration certificates in the following languages D, GB, F, I, E, NL, PL

The DKD calibration certificate confirms both the measurement characteristics of the checking equipment and the general requirements for the control of checking equipment.

Where? Internationally recognised – this is monitored by ILAC (International Laboratory Accreditation Cooperation) and in Germany, for example the DKD (German calibration service)

When? The operator controls the use of checking equipment and periodic recalibration time intervals themselves

The advantages of using KERN in-house calibration

You send your balance to us.

To be recommended with new equipment and for balances which can be transported economically, as the travel costs for on-site calibration are then not applicable.

The advantages of using KERN on-site calibration

We visit you.

In Germany, KERN has access to a comprehensive network of employees at the KERN DKD calibration laboratory, who can carry out on-site calibration of scales up to 6000 kg.

The calibration service is **independent of the brand**.

Preliminary maintenance work by agreement.

Prices for on-site calibration on request.

Recalibration

- The recalibration schedule depends on the frequency of use, the conditions of use and the safety requirements.
- We would recommend that you recalibrate your test weights every 6 months if they are used intensively, and every 12 months with normal use.

Oldest European Manufacturer of Precision Balances since 1844

Gegenstand Object	Gewichtssatz, 1 mg - 500 g Klasse E2 Set of weights, 1 mg - 500 g Class E2 2	Dieser Kalibrierschein dokumentiert die Rückführung auf nationale Normale zur Darstellung der Einheiten in Übereinstimmung mit dem Internationalen Einheitensystem (SI). Der DKD ist Unterzeichner der multilateralen Übereinkommen der European cooperation for Accreditation (EA) und der International Laboratory Accreditation Cooperation (ILAC) zur gegenseitigen Anerkennung der Kalibrierscheine. Für die Einhaltung eines angemessenen Frist zur Wiederholung der Kalibrierung ist der Benutzer verantwortlich.
Hersteller Manufacturer	KERN & Sohn GmbH Ziegelei 1 D-72336 Balingen Germany 3	
Typ Type	313-054	This calibration certificate documents the traceability to national standards, which realize the units of measurement according to the

Calibration of test weights

Calibrated measuring equipment requires calibrated checking equipment. For balances, these are calibrated test weights, also called "standard weights".

We calibrate test weights...

- in all cases with permissible error limits E1-M according OIML R111-2004 (for tolerance tables, see page 135), in sizes 1 mg to 500 kg.
- with free nominal value
- Newtons (N)
- independent of design (special designs)

The advantages of using KERN in-house calibration

You send your test weights to us.

- Excellent price performance ratio
- The quickest process time
- standard DKD service: 4 working days
- DKD Express service: 48 hours (new weights)
- The most modern calibration methods with robot controlled comparators) allow the most accurate calibration results and fastest throughput time
- KERN DKD calibration certificates are internationally recognised
- **A calibration service which is independent of the brand**
- KERN also reconditions existing customer weights (e.g. cleaning or readjustment)
- On request, with our parcel service, we can also provide a pick-up and collection service

The advantages of using KERN on-site calibration

We would be pleased to visit you within Germany and carry out the calibration of your reference standards to OIML classes M1 to M3, 10 to 50 kg with permissible error limits, using our mobile MACOS system. Minimized downtime of your checking equipment and direct contact with our expert are the major benefits of this service. Price on request.

Recalibration

- The recalibration schedule depends on the frequency of use, the conditions of use and the safety requirements.
- In terms of standardisation, no particular recalibration interval is specified.
- We would recommend that you recalibrate your test weights every 6 months if they are used intensively, and every 12 months with normal use.
- We would be pleased to monitor your recalibration schedule

- 1 Official document
- 2 Item to be calibrated
- 3 Traceability, see page 159
- 4 Identification/Applicant
- 5 Environmental conditions
- 6 Metrological component
- 7 Conventional mass
- 8 Measuring uncertainty, see page 159

KERN Glossary

Accuracy classes for test weights

E, F, M → *Error limit classes.*

Adjusting of measuring equipment

Precise setting of a measure value via a professional intervention in the measurement system.

Adjusting the weighing range of a balance

Either with the external test weight via the **adjusting program (CAL)**, or with the **internal automatic adjustment resp. adjusting switch**. It is necessary with variations in temperature, a change of environmental conditions, change of location, etc. **Recommended as a daily check routine.**

Animal weighing program

When the animal moves during the weighing process, a stable average value is obtained by using the HOLD key. This value remains „frozen“ until the HOLD key is pressed again.

→ *Vibration-free weighing*

Application accuracy

Allowance for → *measuring uncertainty* during practical use of a balance. Is given in the appendix to the DKD calibration certificate.

Balances which are verified / not approved for verification

Metrologically almost identical. For verified balances certain details are regulated by law, e.g. software changes and additional markings.

Capacity display:

a bar lights up to show the currently selected and optionally available weighing range.

Calibration Certificate DKD/DaAkkS

Documentation of measured characteristics of balances or test weights and of traceability to the national standard. Additional price.

Calibration of measuring equipment:

determination of the precision of a measure value without intervention in the measurement system. Example: to check a balance you load a → *test weight upon it*. The term „Calibrating“ was formerly also used for → *Adjusting*.

Calibration or verification

DKD-Calibration is possible for every balance in perfect condition. DKD calibration is a private service monitored by the state for ensuring high quality requirements according to ISO 9000ff and others, e.g. in production or research. **M** Verifying is only possible for → *type-approved balances* marked with the green **M** → *Verification*

Conformity evaluation

Procedure for confirming warranted characteristics in accordance with recognised rules. For balances this relates to verification.

Conformity declaration from the manufacturer

The manufacturer declares that the product fulfils the applicable EU directives. With electronic balances this is always in conjunction with the CE mark.

Control of measuring equipment in the QM system in conjunction with quality standards

An organisation certified to a quality standard such as DIN/EN/ISO 9000 ff. e.g. a production plant is obliged to adhere to a defined quality standard within the framework of its quality management system. To do this, it is imperative that you have measuring equipment which is working accurately. DIN/EN/ISO 9001, December Edition 2008 states in section 7.6 „Guidance of monitoring and measuring equipment“, that measuring equipment must be calibrated at defined intervals and before use. The measuring devices and measuring standards needed to do this must:

- be traced back to international or → *national standards*.

- their measuring uncertainty must be known

- they must be marked with a clear identification

- the test must be documented
The → *DKD calibration* fulfils all these requirements.

Counting resolution

The counting resolution is calculated in points from the ratio of the weighing range [Max] divided by the smallest part weight. It is a statement of counting accuracy.

Data interface / parameters

For the most part RS 232C, bidirectional. For direct connection of a printer or PC to the balance. The interface parameters can be set on the balance keypad. Interface cable, see p. 126.

Density determination

(previously „Specific weight“)

DKD = German Calibration Service

See product group 16 „DKD-Calibration service“

DMS = Strain gauge

An electrical resistor strip that is glued to an elastic deforming body made of aluminium. As the strain gauge is mechanically deformed its resistance value changes, allowing the measured value to be calculated.

Draught shield

Required for balances with → *Readout d* ≤ 1 mg, to avoid disturbing air movements..

Dual-range balance

As the load increases, the balance switches automatically to the next largest range, for both weighing range [Max] as well as readout [d].

Dynamic weighing

→ *Filter*

Error limit classes for test weights in accordance with R 111 OIML

For further details, see section 15 „Test weights“

Factory

These options can only be carried out in the KERN factory.

FORCE = Electromagnetic force compensation:

A counterforce is created by means of a coil in a permanent magnet. This counterforce is the same as the load of the weight being measured on the scale and therefore maintains the balance. The measured value is calculated via the change in the coil current.

GLP = Good Laboratory Practice

→ *ISO/GLP*

Gravitational acceleration

→ *Gravitational force*

Gravitational force:

very important influence for precise electronic balances. Due to the varying influence balances have to be → *adjusted* at the location of use.

IP65 to IP68 protection

See product group - 06 „Stainless steel | IP65...68 protection“.

ISO 9000ff/DIN EN ISO 9000ff

Quality Management System in the form of a DIN Norm for quality assurance in a factory.

ISO calibration/ISO certificate = factory calibration certificate

Testing measuring devices for accuracy in accordance with a procedure which is recognised, but not accredited.

ISO/GLP record keeping

Quality Assurance Systems demand record keeping of weighing results and the correct adjusting of the balance giving details of date, time and balance identification. The easiest way of obtaining this documentation is by means of a connected printer.

Linearity/precision

Greatest deviation of the weight display of a balance to the value of the respective test weight in terms of plus and minus over the whole weighing range.

Memory

Balance contains memories, e.g. for item data, weighing data, tare weights etc. → *PLU*

Minimum load Min

Lower limit of the verifiable weighing range. Is marked on the verification plate. The function of the balance is also given below the minimum load.

Net total

= total weight of all components of a mixture without the weight of the tare cup.

Optimisation of counting

→ *Optimisation of reference weight*

Optimisation of reference weight when piece counting

The reference weight is generated automatically several times during the counting process. Increases the counting accuracy.

KERN Glossary

Percentage determination (example)

Reference weight prior to drying: 50g = balance display 100 %. After drying 40 g = balance display 80 % absolute (dry mass) or 20 % relative (humidity).

Permissible ambient temperature

Measuring errors are possible with readings either side of the limits. With verified balances this is stated on the identification plate.

Piece counting of single pieces

when weighing e.g. 10 identical pieces; the → *reference quantity* is 10. The balance automatically indicates the average weight per piece. As from now each loading of identical pieces to be counted will be directly indicated as the quantity of pieces. The following applies: **The higher the reference quantity, the higher the counting accuracy.**

PRE-TARE

→ *Automatic taring*

Proof of compatibility

This documents the verification compatibility for combinations of weighing modules such as display devices, load cells and connecting elements.

Quality management system

→ *Control of measuring equipment*

Readout d

Smallest readable weight increment on a digital display.

Recalibration

periodic checking of the precision of measurement equipment/checking equipment (e.g. balances/ weights) to keep control over accuracy, → *Control of measuring equipment*

Reference weight (when piece counting)

See product group 08 „counting balances | counting systems“.

Reproducibility (standard deviation)

the measure of conformity in repeat weighing (e.g. balances) subject to the same conditions. Mostly 1 **d** or less. Quality feature.

SC-TECH = Single-Cell Technology

→ *FORCE*. The load cell consists of a single aluminium block, which gives a very high measuring quality.

Semi-micro balance

Analytical balance with a readout **d** = 0,01 mg.

Smallest part weight when counting

The smallest piece weight, which a balance can accept for piece counting. For the relevant model, enter „g/piece“ in the product data table.

Tare deduction

→ *Automatic taring*

Taring, automatic (PRE-TARE)

When the tare pan is put in place the balance immediately displays zero. Saves time.

Taring, subtractive

The available weighing range of a balance is reduced by the value of the tare load. Example: weighing range of a balance Max 6000 g, Tare (= container) 470 g, available weighing range 5530 g.

Test weight, external (previously calibration weight)

for adjusting or checking the balance accuracy → *Adjusting the weighing range*. The external test weight can be DKD calibrated at any time, even afterwards, see product group 16 „DKD-Calibration service“.

Test weight, internal

Like test weight external, but installed in the balance and powered.

T-FORK = Tuning fork principle

A resonating body (like a tuning fork) is electromagnetically excited, causing it to oscillate. The measured value is calculated via the change in frequency corresponding to the load of the weight being measured on the scale.

Traceability to the National Standard

ISO 9000 ff requires the correctness of all checking equipment (e.g. test weights) with the official standard in accordance to the defined tolerance. Thereby incorrect measurement is prevented.

Totalising

Various individual weighings are added automatically to aggregate, e.g. all individual weighings of a batch.

Uncertainty of measurement of a balance (= standard deviation)

Determined for each balance according to a precisely given test method and documented in the → *Calibration certificate*. It depends on various factors both internal and external. With increasing weight the uncertainty of measurement rises, see product group 16 „DKD-Calibration Service“

Verification validity for balances

Generally 2 years for all verification categories, for control balances generally 1 year, after expiry the balance has to be reverified.

Verification categories of balances

Class I – Analytical balance (precision balance),
Class II – precision balance,
Class III – industrial scale (commercial scale).

Verification

Verification, in accordance with the new terminology „Conformity assessment“. Only balances with → EC type approval can be evaluated for conformity. These balances have an identification plate with the green → M. Verification is stipulated by the state and serves as consumer protection.

According to the EU directive 2009/23/EG, balances must be verified if they are used as follows:

- in commercial trade when the price of a commodity is determined by weighing.
- in the manufacture of pharmaceuticals in pharmacies and analysis in pharmaceutical and medical laboratories.
- for official purposes.
- in the production of prepackaging.
- in medical applications.

Every balance is tested by the metrological service and stamped with a verification mark. Its accuracy within the framework of permissible standard tolerances is thereby confirmed. EU verification applies to all member states of the EU.

Verification of a balance with adjusting program CAL EXT:

the adjusting program is sealed with an official mark after the verification. Thus the verification is only valid for the specific location of use.

→ *Gravitational force*

For the preparation of verification it is therefore necessary to advise the location of use and post-code. See individual model details for the information as to whether verification can be carried out in the factory or at the location of use.

Verification of a balance with automatic internal adjusting CAL INT:

the above restrictions in respect of the location of use do not apply, because the automatic internal adjusting works also after the verification, therefore it is not sealed. In this case the verification does not depend on the location.

Verification value e:

measure of the verification tolerance, depending on balance, mostly between 1 **d** and 10 **d**
→ *Readout*

Weighing range [Max]

is the working range of the balance. The balance can be loaded up to the specified upper limit.

Weighing with tolerance ranges

The lower and upper limiting values are programmed individually. Input is possible in grams, pieces or %. With tolerance checks such as dosing, portion division or grading, the balance displays the value over or under the limits.

Wireless communication

For KERN balances between the platform and display device using the integrated radio module. Range within line of sight depending on the model, approx. 10-20 m.
